Operator Compliance. The UST Owner/Operator: Written Agreement, if applicable, can be stored at the facility or uploaded into CERS.
NOTES: - Completed SR0072349 on site.
Eval Division: San Joaquin County Environmental Health
Eval Program: UST
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 06-05-2014
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by July 5, 2014. Consent to perform the inspection, take photos and collect samples was given by Gilbert Silva, fuel manager. This facility's designated operator is Karen Arnaiz (ICC expiration date: 5/31/15) . The service technician was Kris Bell (ICC expiration date: 10/2/14), who had the following manufacturer's certifications: Veeder-Root (expiration date: 3/4/16), VMI Tester (expiration date: 11/19/14). Please be aware that as of January 1, 2014, facility operators are required to upload the following UST program documents into the California Environmental Reporting System (CERS): UST Monitoring Site Plan, UST Certification of Financial Responsibility, UST Response Plan, UST Owner/Operator: Written Agreement (if applicable), UST Letter from Chief [Truncated]

LUST:

Name: J.C. TRUCKING
 Address: 1207 AURORA ST S
 City,State,Zip: STOCKTON, CA 95206
 Lead Agency: SAN JOAQUIN COUNTY
 Case Type: LUST Cleanup Site
 Geo Track: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0607700584
 Global Id: T0607700584
 Latitude: 37.9425262
 Longitude: -121.2763338
 Status: Completed - Case Closed
 Status Date: 06/04/2010
 Case Worker: Not reported
 RB Case Number: 390749
 Local Agency: Not reported
 File Location: Local Agency
 Local Case Number: 2571
 Potential Media Affect: Aquifer used for drinking water supply
 Potential Contaminants of Concern: Gasoline
 Site History: May 1992- Four underground storage tanks were removed from the site, the tanks were located in two separate tank pit locations. Soil samples for analysis were collected from the tank pits; laboratory results reported petroleum hydrocarbon impact to the soil. August 1997- A site investigation began with the installation of geoprobe soil borings. Soil and grab groundwater samples were collected for analysis, petroleum hydrocarbon impact was confirmed. April 1999-May 2001- Additional soil borings and groundwater monitoring wells were installed both on and offsite. December 2004- Site remediation of the impacted groundwater by ozone infusion was started. June 2009- Soil vapor samples were collected for analysis and review of potential for vapor intrusion from remaining contamination. A Closure Report was submitted on November 16, 2009; A concurrence request was submitted to the Regional Water Quality Control Board on November 19, 2009. Concurrence was received on December 21, 2009. Monitoring and remediation wells were destroyed in April 2010. No Further Action letter issued June 9, 2010.

Status Date: 07/23/2009
Case Worker: Not reported
RB Case Number: 391067
Local Agency: Not reported
File Location: Local Agency
Local Case Number: 692
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Benzene, Toluene, Xylene, Gasoline
Site History: April 1999 - Three USTs containing gasoline, associated product piping and dispensers were removed. July 1999 - Sensitive Receptor Survey report identified one domestic and three unknown type wells within a one-half mile radius of the site. July 2001 - four CPT borings (SB-1 through SB-4 were advanced. December 2002 - MW-1 through MW-5 were installed. June 2004 - CPT borings SB-5 through MW-9 were advanced. December 2004 - MW-6 through MW-9 were installed. October 2006 - operation of an interim groundwater extraction system was begun. November 2007 -three soil borings were advanced off-site and down gradient of the source. Between June 20 - 23, 2011, all monitoring wells associated with this site were destroyed prior to case closure.

Violation Description: Failure to properly manage used oil and/or fuel filters in accordance with the requirements.

Violation Notes: Returned to compliance on 02/06/2019. Disposal records for the used oil filters from the forklifts were not found on site. The manager stated that someone comes to work on the forklift and takes the waste back with him. The manager did not know who did the work on the forklifts or what he does with the waste. Per Title 22 California Code of Regulations (CCR) 66266.130, oil filters that are not completely drained need to be managed as hazardous waste. If the oil filters are completely drained, they can be disposed of via recycling. A bill of lading needs to be left with the facility for drained oil filters. Per 22 CCR 66266.130 (c)(5), bills of lading must indicate generator, transporter, and receiving company names, addresses, telephone numbers, the quantity and size of used oil filter containers transferred, and the date of transfer. If the oil filters are being taken as recycling, immediately start to keep and store the bills of lading when the filter waste is generated.

Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to establish and electronically submit an adequate training program in safety procedures in the event of a release or threatened release of a hazardous material.

Violation Notes: Returned to compliance on 04/08/2019. The training program lacks the frequency of training (initial and annual refresher training), safety procedures in the event of a release or threatened release of a hazardous material, familiarity with the emergency response plans and procedures, immediate notification contacts to the appropriate local emergency response personnel and the Environmental Health Department, procedures for the mitigation of a release or threatened release to minimize any potential harm or damage to persons, property, or the environment. Training programs for all employees and annual training, including refresher courses, shall include safety procedures for the event of a release or threatened release of a hazardous material, including, but not limited to, familiarity with the facility's emergency response plans and procedures. These training programs may take into consideration of each employee. Immediately prepare or update the facility's training program, log into the California Environmental Reporting System

Violation Description: Failure to determine if the waste generated is a hazardous waste and to maintain analysis results for three years.
Violation Notes: Returned to compliance on 02/20/2016. According to Marina Moreno, used absorbent for spill control is thrown in the dumpster. Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately stop disposal of used absorbent in the dumpster, make a hazardous waste determination for the used absorbent, and manage it according to the Title 22 hazardous waste regulations. Submit a statement and supporting documentation explaining how this waste was managed.

Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 01/09/2015. Employees Environmental training records were not available at the time of the inspection . The business plan shall include provisions for ensuring that appropriate personnel receive initial and annual refresher training. This training shall be documented electronically or by hard copy and shall be made available for a minimum of three years. Immediately provide employee training for appropriate personnel and submit a copy of the training records to the EHD. A list of the required training was given to the Business. This is a Class II violation.

Violation Date: 1/9/2020
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 05/21/2020. OBSERVATION: The following hazardous waste containers were found on-site with an accumulation start date of greater than 180 days or no accumulation start date:
-One blue metal 55 gallon drum of used absorbent was observed in the hazardous waste storage area with an accumulation start date of 8/3/2018. -Two black metal 55 gallon drums of used oil were observed in the hazardous waste storage area with accumulation start dates of 6/18/2019. REGULATION GUIDANCE: (a) Except as provided in subsections (c) and (d) of this section and section 66262.35, a generator may accumulate hazardous waste on-site for 90 days or less without a permit or grant of interim status, provided that: (b) The beginning of the 90 day period specified in subsections (a) and (c) of this section is determined as follows: (1) if the generator does not generate more

Violation Date: 2/5/2016
Citation: 22 CCR 12 66262.40(c) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(c)

Violation Description: Failure to determine if the waste generated is a hazardous waste and to maintain analysis results for three years.

Violation Notes: Returned to compliance on 01/09/2020. Sludge accumulated from different tanks in the grinding shops are being used for gardens according to Diane, office manager. Another employee, Mike Volkerts, stated that the sludge are serviced by a company every 6 months, but

he does not know the company name. Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately stop disposing sludge in gardens, make a hazardous waste determination for the sludge accumulated from different tanks in the grinding shop, and manage it according the Title 22 hazardous waste regulations. Submit a statement and supporting documentation explaining how this waste was managed. Metal fines generated from metal grinders are being recycled as scrap metal without first determining particle size or hazardous properties. Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately stop recycling metal fines, make a hazardous waste determination for the metal fines, and manage it acc

Site Name: ACME SAW & INDUSTRIAL SUPPLY
Violation Date: 1/9/2020
Citation: 40 CFR 1 262.34(d)(5)(ii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(ii)

Violation Description: Failure to post the following information next to the telephone: (A) The name and telephone number of the emergency coordinator; (B) Location of fire extinguishers and spill control material, and, if present, fire alarm; and (C) The telephone number of the fire department, unless the facility has a direct alarm.

Violation Notes: Returned to compliance on 01/09/2020. OBSERVATION: A complete modified contingency plan was not posted at the facility. REGULATION GUIDANCE: The business operator must post the following information next to telephones or in areas directly involved in the generation and accumulation of hazardous waste: the name and emergency telephone number of the emergency coordinator, the location of fire extinguishers and spill control material, and the telephone number of the fire department unless the facility has a direct alarm. CORRECTIVE ACTION: The violation was corrected during the inspection by filling out the provided modified contingency plan. No further action is required to correct this violation.

Violation Description: Failure to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for three years.

Violation Notes: Returned to compliance on 05/21/2016. Copies of uniform manifests for the disposal of hazardous waste for used oil, waste gas and oil mixed and used absorbent for 2013 were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD. The following manifest numbers were not found on site:

facility's emergency response plans and procedures. These training programs may take into consideration of each employee. Immediately prepare or update the facility's training program, log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, upload the correct or updated information, and submit to the EHD for approval.

Violation Division: San Joaquin County Environmental Health
Violation Program: HMRRP
Violation Source: CERS

Site ID: 70836
Site Name: SRH FOOD & GAS
Violation Date: 5/29/2015
Citation: 23 CCR 16 2715 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2715

Violation Description: Failure to comply with one or more of the designated operator monthly inspection requirements: failed to inspect the monthly alarm history report; attach a copy of the alarm history; failed to inspect for the presence of liquid or debris in the spill container/spill bucket and under dispenser containment; failed to inspect the under dispenser containment to ensure that monitoring equipment is placed in the proper position; failure to inspect for liquid or debris in the containment sump where an alarm occurred or for which there is no record of a service visit; or failure to check that all testing and maintenance has been completed and documented.

Violation Notes: Returned to compliance on 07/01/2015. The designated operator failed to check and note the correct test dates for the secondary containment (SB989) testing on eleven of the designated operator monthly inspection reports in the last year. It was listed as: - 3/19/14 on the April and May 2015 reports - 3/20/13 on the September, October, November, and December 2014 and January and February 2015 reports - 3/2013 on the July and August 2014 reports - 3/2012 on the June 2014 report Secondary containment testing was conducted on March 19, 2012 and March 18, 2015. During the monthly inspection, the designated operator shall check that all required testing and maintenance for the UST system have been completed and document the dates they were done. Ensure that designated operators performing monthly inspections at this facility are including all of the required information on the reports.

Violation Date: 5/22/2014
Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2

Violation Description: Failure to meet any of the following consolidated manifest requirements: 1) Legible receipts for each quantity of hazardous waste that is received from a generator, 2) The generator's information (name, address, identification number, contact person, telephone number of the generator, the signature of the generator or the generator's representative), 3) Date of the shipment, 4) The manifest number, 5) The volume or quantity of each waste stream received, 6) The name, address, and identification number of the authorized facility to which the hazardous waste will be transported, 7) The transporter's information (name, address, and identification number, the driver's signature), 8) A statement, signed by the generator, certifying that the generator has established a program to reduce the volume or quantity and toxicity of the hazardous waste to the degree economically practicable. 9) The generator shall retain each receipt for at least three years.

Violation Notes: Returned to compliance on 06/05/2014. Copies of hazardous waste disposal records for the disposal of hazardous waste liquid were not found on site. According to maintenance records on site, liquid was removed from the 87 STP sump on March 11, 2014 and placed in a drum on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD. This is a repeat violation, Class

Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 06/05/2014. A 55 gallon black steel drum of hazardous waste solids was observed outside the facility with a blank hazardous waste label. According to Mr. Rizwan, he keeps all hazardous waste in 5 gallon buckets behind the store and was not aware of a drum in this location. The maintenance records on site note that absorbents are placed in a hazardous waste drum on site. A 5 gallon bucket of spent absorbent was observed behind the facility with no contents listed. All hazardous waste containers shall be marked with the following information: - the words G Hazardous WasteG - name and address of generator - hazardous properties (flammable, corrosive, reactive, toxic) - physical state (liquid, solid) - composition (contents) - accumulation start date The label on the 5 gallon bucket was corrected at the time of inspection. Immediately label the 55 gallon drum and ensure that all containers are marked with all the required information. Since it cannot be determined [Truncated]

Violation Description: 16, Section(s) 2715(c)
Failure to comply with one or more of the following designated operator (DO) monthly inspection requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(f)(2).

Violation Notes: Returned to compliance on 06/06/2018. The designated operator failed to document all the alarms from the attached alarm history on the 9/29/17 designated operator monthly inspection report and failed to check that they were responded to appropriately. The missing alarms include: an L1 87 annular fuel alarm on 8/15/17. During the monthly inspection, the designated operator shall review the alarm history for the previous month, check that each alarm was documented and responded to appropriately, and attach a copy of the alarm history with documentation taken in response to any alarms to the monthly report. Ensure that designated operators performing monthly inspections at this facility are including all of the required information on the reports.

Violation Description: Failure to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for three years.

Violation Notes: Returned to compliance on 06/05/2014. Copies of uniform manifests for the disposal of hazardous waste liquid were not found on site. According to maintenance records on site, liquid was removed from the 87 STP sump on March 11, 2014 and placed in a drum on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD. This is a repeat violation, Class II.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

CERS Description: Chemical Storage Facilities

Violations:

Site ID: 62110
Site Name: RITEWAY CLEANERS
Violation Date: 10/13/2014
Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)
Violation Description: Failure to dispose of hazardous waste within 180 days (or 270 if waste is transported over 200 miles) for the generator who generates less than 1000 kilogram per month, but more than 100 kilograms per month.
Violation Notes: Returned to compliance on 11/12/2014. Unable to determine the date of accumulation on 1 gallon jug of waste oil (See Violation 605 below). Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. Immediately contact a licensed hazardous waste hauler to dispose of this waste under manifest and submit a copy of the manifest to the EHD. This is a Class II violation.

Site ID: 62110
Site Name: RITEWAY CLEANERS
Violation Date: 1/8/2015
Citation: HSC 6.5 Multiple Sections - California Health and Safety Code, Chapter 6.5, Section(s) Multiple Sections
Violation Description: Haz Waste Generator Program - Operations/Maintenance - General
Violation Notes: Returned to compliance on 01/30/2020. At least 10 Universal waste lamps were not stored in a container nor labeled; owner stated these had just been removed about 3 days ago as business changed hand. Universal waste lamps shall be stored in a manner that prevents breakage and release to the environment. All broken universal waste lamps and releases shall be immediately cleaned and containerized. Immediately store all universal waste lamps in a manner that prevents breakage and release to the environment and submit evidence of correction to EHD. This is a minor violation.

Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 62110
Site Name: RITEWAY CLEANERS
Violation Date: 10/13/2014
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 11/12/2014. No hazardous waste label on a container of waste oil (see Violation #601 above). All hazardous waste containers shall be marked with the following information: - the words G Hazardous WasteG - name and address of generator - hazardous properties - physical state - composition (contents) - accumulation start date Immediately label these containers and ensure that all hazardous waste containers are marked with all the required information. This is a repeat violation, Class II.

Violation Source: CERS

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-30-2020
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Routine hazardous waste inspection. The facility filled out and posted the modified contingency plan during the inspection. An accumulation date was added to the hazardous waste drum. Hazardous waste was last hauled from the facility in November 2019. The facility generates hydrocarbon waste from dry cleaner equipment. One drum is hauled away as hazardous waste per year.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 10-13-2014
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by November 13, 2014. Consent to perform the inspection, take photos and collect samples was given by Tom Migliori the business owner. Facility generated 674 pounds of hazardous waste in 2013. Facilities generates solvent waste (TCE) and waste oil from equipment maintenance (3 gallons in 2013) from its dry cleaning operation. Discussed Conditionally Exempt Small Quantity Generator criteria and storage limitation with Tom. Tom demonstrated he does not have over 55 gallons or 500 pounds of detergent; hence only the DF2000 is listed in the Hazardous Material inventory in CERS. Provided blank Hazardous Waste labels and CUPA class schedule to Tom.

Eval Division: San Joaquin County Environmental Health

Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-08-2015
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by February 7, 2015. This is a final hazardous waste inspection for the previous owner, Tom Migliori, who has sold the business, and a Routine hazardous waste inspection for the new owner. Escrow was closed on approximately January 5, 2015. Consent to perform the inspection, take photos and collect samples was given by Suleiman El Billeh and Michel Haddad, the new business owner. Tom Migliori was also on site during this inspection. This facility generated less than 5 tons of waste in the last calendar year (Jan-Dec). Verified all hazardous waste has been removed by Tom before handing the business over to the new owners. During this inspection Tom provided a copy of the last hazardous waste disposal manifest. Discussed with new owners [Truncated]

the modified contingency plan during the inspection. An accumulation date was added to the hazardous waste drum. Hazardous waste was last hauled from the facility in November 2019. The facility generates hydrocarbon waste from dry cleaner equipment. One drum is hauled away as hazardous waste per year.

Eval Division: San Joaquin County Environmental Health
Eval Program: HW
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 10-13-2014
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by November 13, 2014. Consent to perform the inspection, take photos and collect samples was given by Tom Migliori the business owner. Facility generated 674 pounds of hazardous waste in 2013. Facilities generates solvent waste (TCE) and waste oil from equipment maintenance (3 gallons in 2013) from its dry cleaning operation. Discussed Conditionally Exempt Small Quantity Generator criteria and storage limitation with Tom. Tom demonstrated he does not have over 55 gallons or 500 pounds of detergent; hence only the DF2000 is listed in the Hazardous Material inventory in CERS. Provided blank Hazardous Waste labels and CUPA class schedule to Tom.

Eval Division: San Joaquin County Environmental Health
Eval Program: HW
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-08-2015
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by February 7, 2015. This is a final hazardous waste inspection for the previous owner, Tom Migliori, who has sold the business, and a Routine hazardous waste inspection for the new owner. Escrow was closed on approximately January 5, 2015. Consent to perform the inspection, take photos and collect samples was given by Suleiman El Billeh and Michel Haddad, the new business owner. Tom Migliori was also on site during this inspection. This facility generated less than 5 tons of waste in the last calendar year (Jan-Dec). Verified all hazardous waste has been removed by Tom before handing the business over to the new owners. During this inspection Tom provided a copy of the last hazardous waste disposal manifest. Discussed with new owners [Truncated]

Violations:
Site ID: 158212
Site Name: GSG GAS & MART
Violation Date: 6/6/2018
Citation: 23 CCR 16 2715(c) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2715(c)
Violation Description: Failure to comply with one or more of the following designated operator (DO) monthly inspection requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(f)(2).
Violation Notes: Returned to compliance on 06/27/2018. The designated operator failed to document all the alarms from the attached alarm history on the January 2018 designated operator monthly inspection report and failed to check that they were responded to appropriately. The missing alarms include: an L8 dispenser 5-6 fuel alarm occurring on 1/19/18. During the monthly inspection, the designated operator shall review the alarm history for the previous month, check that each alarm was documented and responded to appropriately, and attach a copy of the alarm history with documentation taken in response to any alarms to the monthly report. Ensure that designated operators performing monthly inspections at this facility are including all of the required information on the reports.

Site Name: GSG GAS & MART
Violation Date: 6/19/2014
Citation: HSC 6.7 Multiple Sections - California Health and Safety Code, Chapter 6.7, Section(s) Multiple Sections

Violation Description: UST Program - Operations/Maintenance - General
Violation Notes: Returned to compliance on 07/10/2014. The 87 piping under dispenser 5/6 was observed to be weeping and dripping, indicating a leak in the primary piping. A small amount of liquid was observed in the UDC. All primary containment for the UST system must be tight. Immediately have a properly licensed, trained, and certified contractor repair or replace the failed component under permit and inspection of the EHD. This is a Class II violation.

Violation Program: UST
Violation Source: CERS

Site ID: 158212
Site Name: GSG GAS & MART
Violation Date: 6/24/2019
Citation: 23 CCR 16 2716(a) through (e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(a) through (e)

Violation Description: For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.

Violation Notes: Returned to compliance on 07/19/2019. A designated operator inspection was performed on December 20, 2018 and the next inspection was performed on January 21, 2019, 33 days later. The designated operator visual inspections shall be conducted within 30 days or less of the previous inspection. Ensure that all designated operator inspections are performed within the required time frames. The DO failed to check and note all required items on the visual inspection reports. The following was observed on the designated operator's monthly inspection reports: -CERS ID was not included. -The G N/NAG in sections VII through XI were not explained. -Section VI of the report was the owner/operator's signature. -The question regarding UDC sensor locations was left blank. During the visual inspection, the designated operator shall check all required testing and maintenance for the UST system have been completed and shall check all required items on the report. Ensure that designated operators performing visual inspections

Site ID: 158212
Site Name: GSG GAS & MART
Violation Date: 6/19/2014
Citation: 23 CCR 16 2638 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2638

Violation Description: Failure to test leak detection equipment as required every 12 months (VPH, sensor, LLD, ATG, etc.) and/or submit monitoring system certification to the CUPA within 30 days of completion of the test
Violation Notes: Returned to compliance on 07/10/2014. Annual monitoring system certification, leak detector testing, and spill container testing was scheduled to be performed on June 18, 2014 and a test report was submitted to the EHD on August 23, 2013, more than 30 days later. A copy of the test report must be submitted within 30 days of these tests. Ensure that all test reports are submitted within the required time frames. This is a repeat violation, Class II.

Violation Date: 6/26/2017
Citation: 23 CCR 16 2641(a) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2641(a)

Violation Description: Failure of leak detection equipment to be located such that equipment is capable of detecting a leak at the earliest possible opportunity.
Violation Notes: Returned to compliance on 06/26/2017. The test boots in the 87 and 91 STP sumps were not pulled back and the Schrader valves are pointed straight up. Any potential release from the primary containment into the secondary containment in the 87 and 91 piping does not flow into a collection sump. All secondary containment systems shall be sloped so that all releases will flow to a collection sump located at the low point of the underground piping. This was corrected on site.

Violation Source: CERS

Site ID: 158212
Site Name: GSG GAS & MART
Violation Date: 6/24/2019
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)

Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Notes: Overfill prevention testing has not been conducted. According to the service technician onsite this testing was scheduled to be conducted today but it was canceled because they were having trouble with removing the drop tube. This testing was required to be conducted by October 13, 2018. Immediately schedule this testing and provide 48 hours notification to the EHD. Ensure all future testing is conducted within required time frames.

Site Name: GSG GAS & MART
Violation Date: 6/26/2017
Citation: 23 CCR 16 2712(f) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(f)

Violation Description: Failure to implement the corrections specified in the inspection report within 30 calendar days of receiving an inspection report from either the CUPA or special inspector.

Violation Notes: Returned to compliance on 06/26/2017. An inspection was last done on June 20, 2016 and an inspection report was issued identifying information to be submitted to bring this site into compliance. This information was required to be submitted by July 20 2016. This information has not been received resulting in a non-compliant status for this facility. An operator that receives an inspection report shall have 30 days to submit a written response that includes a statement documenting corrective actions taken or proposing corrective actions which will be taken. Ensure that a written response documenting corrective actions taken or proposed is submitted within 30 days of receiving an inspection report.

Violation Date: 6/19/2014
Citation: 23 CCR 16 2715(f) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2715(f)

Violation Description: Failure to comply with one or more of the following: provide training to facility employee(s) responsible for proper operation and maintenance every 12 months and/or train new employee(s) who are responsible for proper operation and maintenance within 30-days of hire and/or to have at least one employee present during operating hours that has been trained in the proper operation and maintenance of the UST system.

Violation Notes: Returned to compliance on 07/10/2014. The designated operator employee training was not current. Records on site indicated that the most recent designated operator training was performed on March 28, 2013. The designated operator shall train facility employees for which he or she is responsible in the proper operation and maintenance of the UST system once every 12 months. The training shall include, but is not limited to: 1. Operation of the UST system in a manner consistent with the facilityG s best management practices 2. EmployeeG s role with regard to monitoring equipment as specified in the facilityG s monitoring plan 3. EmployeeG s role with regard to spills and overfills as specified in the facilityG s response plan 4. Name of the

Section(s) 2712

Violation Description: Failure to obtain permit to install, replace, repair, or modify part
of the UST system containment or leak detection equipment.

Violation Notes: Returned to compliance on 07/10/2014. The 87 STP relay was replaced on
March 7, 2014 and a permit was not obtained from the EHD. Emergency
repairs relating to UST system monitoring and release detection may be
performed by a properly licensed, trained, and certified contractor
pursuant to the EHD'S policy and a permit obtained within one business
day from the EHD. All other repairs must have a permit submitted to
and approved by the EHD prior to beginning work. Immediately obtain a
permit from the EHD for the relay replacement. A G Failure to Obtain a
PermitG penalty applies. This is a Class II violation.

Address: 308 GRANT ST N
City,State,Zip: STOCKTON, CA 95202
Lead Agency: CENTRAL VALLEY RWQCB (REGION 5S)
Case Type: LUST Cleanup Site
Geo Track: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0607700119
Global Id: T0607700119
Latitude: 37.9573518
Longitude: -121.2814462
Status: Open - Remediation
Status Date: 03/25/2013
Case Worker: AMB
RB Case Number: 390170
Local Agency: Not reported
File Location: Regional Board
Local Case Number: Not reported
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Gasoline
Site History: April 1987 - One UST was removed from the site. October 1988 - one waste oil UST was removed from the site. May 1990 - two USTs located beneath the sidewalk on Miner Avenue were removed. February 1994 - Five soil borings (B1 through B5) were advanced and B1 through B4 were completed as monitoring wells MW1 through MW-4. February 1996 - Six soil borings were advanced; one was completed as MW-7 and the remaining borings were completed as vapor extraction wells (VW-2A, -2B, VW-3, VW-4, VW-5A, -5B, and -5C). November 2001 - Two off-site cone penetration test borings (CPT-2 and CPT-3) were advanced. December 2004 and January 2005 - Six CPT borings (CPT-1, CPT-5 through CPT-9) were advanced on- and off-site. November 2005 - extraction wells EW-1 and EW-2 were installed. April and May 2008 - MW-5, MW-6, MW-8, and MW-9 were installed. A soil vapor extraction system operated intermittently at the site from May through December 2008.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to establish and electronically submit an adequate training program in safety procedures in the event of a release or threatened release of a hazardous material.
Violation Notes: Returned to compliance on 11/08/2016. Current employee training records were not available at the time of inspection. The business plan shall include provisions for ensuring that appropriate personnel receive initial and annual refresher training. This training shall be documented electronically or by hard copy and shall be made available for a minimum of three years. Immediately provide employee training for appropriate personnel and submit a copy of the training records to the EHD.

Completed Document Type: Phase 1
Completed Date: 07/07/1994
Comments: Pursuant to the MOU, DTSC has reviewed a Phase I Environmental assessment report and a preliminary asbestos survey for the Channel Street Clinic. The property, owned by the Agricultural Workers' Health Centers, Inc. (AWHC), contains two vacant connected buildings which previously housed a children's day care center. AWHC is proposing to remodel the buildings to accommodate the relocation of thier current Stockton health clinic. A Supplemental Phase I Environmental Assessment Report was prepared by DTSC and concluded that no action was needed for this property, there is no contamination on the property.

Violations:

Site ID: 557295
Site Name: A & B AUTO REPAIR
Violation Date: 10/7/2014
Citation: 40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.31
Violation Description: Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to the air, soil, or surface water which could threaten human health or the environment.
Violation Notes: Returned to compliance on 09/20/2019. Observed oil on the shop floor, and on the soil behind the shop underneath the air conditioner . Facilities shall be maintained and operated to minimize the possibility of a fire, explosion, or release of hazardous waste to air, soil, or surface water which could threaten human health or the environment. Immediately remove the above referenced spillage and contaminated soil , and manage according to Title 22 hazardous waste regulations. Submit a statement, disposal record, and supporting documentation explaining how this waste was managed. This is a minor violation.

Site ID: 557295
Site Name: A & B AUTO REPAIR
Violation Date: 10/7/2014
Citation: 22 CCR 12 66262.40(c) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(c)
Violation Description: Failure to determine if the waste generated is a hazardous waste and to maintain analysis results for three years.
Violation Notes: Returned to compliance on 09/20/2019. The following require hazardous waste determination: Two 5 gallon white buckets underneath the work table in the shop that contained oily waste. One 5 gallon bucket with blue liquid behind the shop. One 5 gallon red bucket with red liquid behind the shop. One 5 gallon bucket of green liquid behind the shop. The oily waste in the secondary containment under the used oil and anti freeze. The metal particles underneath the sand blaster outside the shop, and within the Master Head Surfacer in the shop. Metal fines generated from the sand blaster outside the shop and the Master Head Surfacer in the shop are being recycled as scrap metal without first determining particle size or hazardous properties. Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately stop recycling metal fines, make a hazardous waste determination for the metal particles , and manage it according to Title 22 hazardous waste regulations. Particles 100 microns or smaller

Violation Date: 9/20/2019
Citation: HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5, Section(s) 25250.22

Violation Description: Failure to properly manage used oil and/or fuel filters in accordance with the requirements.

Violation Notes: Returned to compliance on 09/20/2019. OBSERVATION: Containers of used metal oil filters out of compliance with the storage rules were observed on-site. The following used metal oil filter containers were on-site: (1) 55-gallon containers of drained used oil filters were found on site without an accumulation start date. (1) 55-gallon drum of drain used oil filter was missing a label with the words "Drained Used Oil Filters" and accumulation start date. REGULATION GUIDANCE: (b) G used oil filtersG are defined as filters which contain a residue of used oil and which are exempt from regulation as a hazardous waste under the scrap metal provision found in federal law. (c) Used oil filters that meet the conditions of subsection (b) of this section and are managed and recycled in compliance with the following requirements shall not be regulated as hazardous waste. (1) The filters are drained of free-flowing used oil. For the purposes of this subsection, free-flowing is defined as a continuous stream of oil exiting

LUST:
Name: SIEBOLD CONSTRUCTION CO
Address: 820 AMERICAN ST S
City,State,Zip: STOCKTON, CA 95206
Lead Agency: CENTRAL VALLEY RWQCB (REGION 5S)
Case Type: LUST Cleanup Site
Geo Track: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0607700303
Global Id: T0607700303
Latitude: 37.94528832
Longitude: -121.28052731
Status: Open - Eligible for Closure
Status Date: 10/23/2018
Case Worker: AMB
RB Case Number: 390394
Local Agency: Not reported
File Location: Regional Board
Local Case Number: Not reported
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Lead, Benzene, Diesel, Gasoline, MTBE / TBA / Other Fuel Oxygenates, Naphthalene, Toluene, Xylene
Site History: The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the CVRWQCB. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the CVRWQCB should be consulted.

Violations:

Site ID: 369534
Site Name: con j franke warehouse 1
Violation Date: 8/22/2016
Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2

Violation Description: Failure of a generator of hazardous waste that meets the conditions to be transported on a consolidated manifest to comply with one or more of the required consolidated manifesting procedures.

Violation Notes: Returned to compliance on 09/09/2016. The consolidated manifest receipts contain incorrect information for the site address and the EPA ID number. They incorrectly list the address as 317 N. Grant St and are using the ID number for that address (CAL000205132). The correct ID number for this site is CAL000416532. All copies of each receipt shall contain all of the following information: - The name, address, identification number, contact person, and telephone number of the generator, and the signature of the generator or the generator's representative; - The date of the shipment; - The manifest number; - The volume or quantity of each waste stream received, its California and RCRA waste codes, the waste stream type listed in subdivision (c), and its proper shipping description, including the hazardous class and United Nations/North America (UN/NA) identification number, if applicable; - The name, address, and identification number of the authorized facility to which the hazardous waste will [Truncated]

Violation Date: 8/23/2016
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to complete and electronically submit a site map with all required content.

Violation Notes: Returned to compliance on 09/09/2016. The site map was not complete. The site map does not show storm and sewer drains, emergency shut offs and emergency response equipment; a code key or legend has not been included to identify the codes used to denote hazardous materials storage/handling areas; the evacuation assembly area is shown directly adjacent to the hazardous waste storage area and in front of the building's entrance/exit. A site map shall contain a north orientation, loading areas, internal roads, adjacent streets, storm and sewer drains, access and exit points, emergency shutoffs, evacuation staging areas, hazardous material handling and storage areas, and emergency response equipment. Immediately log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, upload the correct or updated information, and submit to the EHD for approval.

Violation Date: 8/22/2016
Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2
Violation Description: Failure of a generator of hazardous waste that meets the conditions to be transported on a consolidated manifest to comply with one or more of the required consolidated manifesting procedures.
Violation Notes: Returned to compliance on 09/09/2016. Copies of hazardous waste disposal records for used oil for the past three years were not found on site. A single consolidated manifest was found for used oil dated 7/23/14. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Immediately locate a copy of all missing manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD.

Violation Date: 8/22/2016
Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 03/04/2020. A 55 gallon black steel drum of used oil was observed with an accumulation start date of 10/12/15. Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. Immediately contact a licensed hazardous waste hauler to dispose of this waste under manifest and submit a copy of the manifest to the EHD.

Violation Date: 3/4/2020
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.
Violation Notes: Returned to compliance on 03/11/2020. OBSERVATION: Designated facility signed copies of Uniform Hazardous Waste Manifest (UHW) numbers 005946909 SKS, shipped 5-2-2017; 007159086 SKS, shipped 9-13-19; and 006391415 SKS, shipped 8-30-18 were not found on-site. REGULATION GUIDANCE: A hazardous waste generator shall keep a copy of each manifest signed in accordance with section 66262.23(a) for three years or until the generator receives a signed copy from the designated facility which received the waste. This signed copy shall be retained as a record for at least three years from the date the waste was accepted by the initial transporter. The hazardous waste generator must submit a copy of the manifest to the California Department of Toxic Substances Control (DTSC) within 60 days if the destination facility signed manifest copy is not received from the transporter or designated facility. CORRECTIVE ACTION: Locate a copy of the destination facility signed manifests and send a copy to the San Joaquin County Envir

Violation Date: 8/22/2016
Citation: 40 CFR 1 262.34(d)(5)(ii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(ii)
Violation Description: Failure to post the following information next to the telephone: (A) The name and telephone number of the emergency coordinator; (B) Location of fire extinguishers and spill control material, and, if present, fire alarm; and (C) The telephone number of the fire department, unless the facility has a direct alarm.
Violation Notes: Returned to compliance on 09/09/2016. An emergency coordinator and modified contingency plan information is lacking. There must be at least one emergency coordinator on site or on call to coordinate emergency response measures, and the following information must be posted by a phone: the name and phone number of the emergency coordinator; location of fire extinguishers, spill control equipment, and if present, fire alarm; and the phone number of the fire department, unless the facility has a direct alarm. Immediately appoint an emergency coordinator and post the required information by a phone. A form is provided that can be used for this purpose.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Evaluation:

Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-21-2017
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: An inspection checklist was provided to the facility operator on September 21, 2017, the day of inspection. This report completed by the Environmental Health Department replaces the initial checklist. Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, within 30 days of receiving the completed inspection report. Please be aware as of January 1, 2013, all businesses were required to submit all hazardous materials information online to the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov>. Be sure to include your hazardous material activity in the Businesses Activities section in CERS in addition to any other relevant activities and required fields. For assistance with CERS, contact Toby Morelli at tmorelli@sjcehd.com or 209-468-3421.

Lead Agency: CENTRAL VALLEY RWQCB (REGION 5S)
Case Type: LUST Cleanup Site
Geo Track: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0607700802
Global Id: T0607700802
Latitude: 37.940525393
Longitude: -121.2780869
Status: Completed - Case Closed
Status Date: 03/18/2016
Case Worker: VJF
RB Case Number: 390981
Local Agency: Not reported
File Location: Local Agency
Local Case Number: Not reported
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Gasoline
Site History: 1972 - Two 12,000 gallon UST reported to have been installed onsite in this year, containing regular and unleaded gasoline. Documentation shows both tanks later contained unleaded gasoline. June 1994 - One 1,000 gallon UST installed onsite, reported to have contained unleaded gasoline.. 6/19/1997 - Soil borings advanced. 2/13/1998 - Three USTs (2 x 12,000 gallon 1 x 1,000 gallon) removed from site. March 1998 - One 20,000-gal UST (compartmentalized 14,000 gallons and 6,000 gallons) installed onsite, used to contain unleaded gasoline (regular and premium). 4/21/1998 - 341 tons impacted soil excavated and disposed. 12/2/1998 - MW-1 and MW-2 installed; 16 monitoring wells, 4 vapor wells and 2 extraction wells installed as of 1/23/2009. 12/01/2008 - Dual phase extraction (DPE) remediation approved, not implemented as of 8/11/2009 01/24/2011 - DPE remediation implemented. 01/29/2014 - DPE remediation system was shut down. Rebound groundwater monitoring to be conducted. 04/14/2015 - Rebound groundwater monitoring results were determined to be favorable for case closure. Groundwater monitoring was directed by EHD to be discontinued. April 2015 - Case determined to be eligible for closure. As of 2015, site is an active fueling facility.

Site ID: 11433
Site Name: BEAS AUTO SALES CORPORATION
Violation Date: 8/12/2014
Citation: HSC 6.95 25508(d) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(d)

Violation Description: Failure to complete and/or electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violation Notes: Returned to compliance on 05/21/2015. The facility's business plan was not submitted electronically to the California Environmental Reporting System (CERS). As of January 1, 2013, all businesses were required to submit all business plans electronically. Immediately log into the CERS at <http://cers.calepa.ca.gov/>, enter the correct or updated information, and submit to the EHD for approval. This is a Class II violation.

Violation Division: San Joaquin County Environmental Health
Violation Program: HMRRP

Site ID: 11433
Site Name: BEAS AUTO SALES CORPORATION
Violation Date: 9/11/2015
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12

Violation Description: Failure to obtain and/or maintain an Active EPA ID.

Violation Notes: Returned to compliance on 11/03/2015. This facility's EPA ID number is inactive. A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without an EPA ID number. Immediately contact DTSC and reactivate your EPA ID number and submit evidence to the EHD. A form has been provided.

Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 11433
Site Name: BEAS AUTO SALES CORPORATION
Violation Date: 8/12/2014
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2

Violation Description: Failure to annually review and electronically certify that the business plan is complete, accurate, and up-to-date.

Violation Notes: Returned to compliance on 05/21/2015. The business plan information has not been reviewed and resubmitted in the California Environmental Reporting System (CERS) annually. The hazardous materials inventory shall be submitted by January 15 of each calendar year and may be submitted beginning November 1 of the previous year. Immediately log into the CERS at <http://cers.calepa.ca.gov/>, enter the correct or updated information, and submit to the EHD for approval. This is a Class II violation.

Evaluation:

Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-11-2015

Violations Found: Yes
Eval Type: Routine done by local agency

Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by October 12, 2015. Please be aware as of January 1, 2013, all businesses are required to submit all hazardous materials information online to the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>. Be sure to include your hazardous waste activity in the Businesses Activities section in CERS in addition to any other relevant activities and required fields. Notes: Conducted a hazardous waste inspection. This facility was added to hazardous waste generator in January 2014. Permission granted by Humberto Beas. According Humberto, the towels and drained used oil filters are disposed of at the Small Business Hazardous Waste Facility on Airport Way. However, there were no disposal records received since Humberto takes his waste [Truncated]

San Joaquin County Environmental Health

Eval Division: San Joaquin County Environmental Health
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-19-2017
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: No violations observed at the time of inspection. Please be aware as of January 1, 2013, all businesses were required to submit all hazardous materials information online to the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov>. Be sure to include your hazardous material activity in the Businesses Activities section in CERS in addition to any other relevant activities and required fields. For assistance with CERS, contact Toby Morelli at tmorelli@sjcehd.com or 209-468-3421.

File Location: Local Agency
Local Case Number: 1050
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Benzene, Toluene, Xylene, Gasoline
Site History: October 1992 - Two USTs, associated piping, and a dispenser island were removed. August 1994 - one boring (B1) was advanced in the center of the former UST site. January 1999 - MW1 through MW3 were installed along with two additional soil borings. April 2000 - CPT1 was advanced. September 2001 - MW4 through MW7 were installed off site. February 2002 - CPT1A and CPT2 were advanced. September 2003- CPT3 through CPT5 were advanced. December 2003 - soil vapor extraction wells SVE1 through SVE5 and three ozone sparge wells OZ1 through OZ3 were installed. January 2004 - two SVE pilot tests were conducted. Between November 2004 and June 2005 - interim SVE remediation was conducted. December 2004 - an ozone pilot test was initiated and terminated in June 2005. January 2006 - ozone sparging began and has been in operation intermittently to this date. April 2006 - soil borings P1 through P3 were advanced. November 2008 - MW8 and MW9 were installed and CPT6 was advanced. All of the wells have been destroyed and this case is closed as of April 25, 2013.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violation Notes: Returned to compliance on 09/06/2019. OBSERVATION: Copies of uniform manifests for the disposal of used coolant, used oil, used oil filters (paper and metal mixed) and oily absorbent for 2019 were not found on site. Business has only been at this address for a few months. REGULATION: Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD.

Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 556325
Site Name: Tower Bridge Auto
Violation Date: 7/31/2019
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12

Violation Description: Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violation Notes: Returned to compliance on 09/24/2019. OBSERVATIONS: This facility has a EPA ID number to manage hazardous waste, but it registered under a different address. REGULATION: A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without an ID number. If you or your business generates more than 100 kg of RCRA hazardous waste and/or more than one kg of acutely hazardous waste, then you need to obtain an EPA ID number. All others must obtain a State ID number. Go to the DTSC web site <https://dtsc.ca.gov/apply-for-hazardous-waste-epa-id-number/> for the form to apply for an ID number. CORRECTIVE ACTION: Immediately obtain an ID number or update existing ID number to manage hazardous waste and submit evidence to the EHD.

Violation Date: 7/31/2019
Citation: HSC 6.11 25404(e)(4) - California Health and Safety Code, Chapter 6.11, Section(s) 25404(e)(4)

Violation Description: Failure to report program data electronically.

Violation Notes: Returned to compliance on 09/04/2019. OBSERVATION: A submission to the California Electronic Reporting System (CERS) for the hazardous waste program has not been made. REGULATION: Beginning January 1, 2013, all businesses are required to submit all new (or any changes to existing) hazardous waste information online to the CERS at <http://cers.calepa.ca.gov>. CORRECTIVE ACTION: Immediately create a CERS account and make the required submittals. Be sure to include your hazardous waste activity in the Businesses Activities section in CERS in addition to any other relevant activities and required fields.

Violation Program: HW
Violation Source: CERS

Site ID: 556325
Site Name: Tower Bridge Auto
Violation Date: 7/31/2019
Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2

Violation Description: Failure of a generator of hazardous waste that meets the conditions to be transported on a consolidated manifest to comply with one or more of the required consolidated manifesting procedures and retain copies of receipts for three years.

Violation Notes: Returned to compliance on 09/06/2019. OBSERVATION: Copies of consolidated manifest for the disposal of used coolant, used oil, used oil filters (paper and metal mixed) and oily absorbent for 2019 were not found on site. Business has only been at this address for a few months. REGULATION: Hazardous waste generators shall retain copies of all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. CORRECTIVE ACTION: Immediately locate a copy of all disposal receipts for the last three years, maintain them on site, and submit copies to the EHD.

Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-22-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by September 1st, 2019. Inspector provided: Hazardous waste labels, hazardous waste minimum labeling requirements sheet. Waste streams observed: used oil, used coolant, used oil filters (paper and metal mixed) and oily absorbent NOTES: Amount of hazardous waste generated could not be determined due to the facility being a new business and having no disposal receipts. The following items were corrected on site during the inspection: Item 104/105: No modified contingency plan and no emergency coordinator. OBSERVATIONS: No modified contingency plan and no emergency coordinator. Operator filled out and posted the modified contingency plan document during the inspection. REGULATION: There must be at least one emergency coordinator on site or on

 File Location: Local Agency
 Local Case Number: Not reported
 Potential Media Affect: Aquifer used for drinking water supply
 Potential Contaminants of Concern: Gasoline
 Site History: Five fuel USTs and one waste oil UST removed November 1992. Laboratory soil data received shows soil impacted with petroleum. The EHD files Notification of Hazardous Waste Discharge on February 26, 1993. Three monitoring wells installed March 1995. Monitoring well water samples contain high concentrations of petroleum. Additional monitoring wells installed from July 1999 to April 2001 and seven CPTs installed from September 1999 to December 2004. Ground water extraction well EW-1 installed August 2002. October 2007 ground water extraction, onsite treatment, and discharge of water to City sewer begins. Work plan due for lateral gw plume delineation. CUF payments not received. RP unable to continue GAC change outs or work plan submittal. EHD oks wp due date to November 9, 2009. December 17, 2009: EHD approves work plan revision for offsite MW-10 & MW-11 installs. July 13, 2010: MW-10 & 11 installed offsite. May 5, 2011: EHD denies request to keep GWE offline and directs reactivation of RAP and eval on cost-effectiveness to be submitted.

Potential Contaminants of Concern: Benzene
Site History: A 550 gallon UST was removed from the site in December 1985. The soil sample collected beneath the tank had high levels of lead in it. In November 1998 a soil boring was advanced and petroleum hydrocarbons were detected in the soil samples collected. Since that time several soil borings have been advanced and six monitoring wells have been installed in order to define the lateral and vertical extent of the petroleum contamination. Two vapor extraction wells were installed and a vapor extraction pilot test was performed in July 2008 with favorable results. Remediation by SVE began 8/10.

Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: OBSERVATION: The following hazardous waste was found on-site with an accumulation start date of greater than 180 days or no accumulation start date: 1. The tank containing used oil does not have an accumulation start date, and according to Yobani Torres, manager/the owner's son, the used oil in the tank has never been disposed of. According to Yobani, the business started operating in January 2019. 2. A 55-gallon poly drum of used/waste antifreeze, located next to the used oil tank, does not have an accumulation start date. According to Fernando Torres, owner, and Yobani, the antifreeze drum has been on-site since they first began operating their business. REGULATION GUIDANCE: (a) Except as provided in subsections (c) and (d) of this section and section 66262.35, a generator may accumulate hazardous waste on-site for 90 days or less without a permit or grant of interim status, provided that: (b) The beginning of the 90 day period specified in subsections (a) and (c) of

Violation Date: 2/21/2020
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11

Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.

Violation Notes: OBSERVATIONS: 1. An unlabeled bag of oily rags was observed on top of the facility's used oil tank. 2. A 5 gallon container of Premium Fibered Aluminum Roof Coating was observed on top of the facility's used oil tank. 3. An open container labeled ChemStation Heavy Duty Degreaser containing either degreaser or used oil was observed on the ground next to the facility's used oil tank. 4. A blue container labeled Henry containing what appeared to be grease or sealant was observed on top of the facility's used oil tank. According to Yobani Torres, manager and the business owner's son, the above mentioned items are waste. REGULATION GUIDANCE: Any person who generates a waste shall determine if the waste is a hazardous waste as specified in Title 22 California Code of Regulations (CCR). There are wastes that are listed as hazardous wastes. There are wastes that exhibit one or more of the hazardous waste characteristics: toxic, corrosive,

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Agency Type: Not reported

SIC Code: 5093

SIC Code 2: Not reported

Primary Waste Type: Nonhazardous Solid Wastes/Influent or Solid Wastes that contain nonhazardous putrescible and non putrescible solid, semisolid, and liquid wastes (E.G., garbage, trash, refuse, paper, demolition and construction wastes, manure, vegetable or animal solid and semisolid waste).

Primary Waste: STORMS

Waste Type2: Not reported

Waste2: Stormwater Runoff

Primary Waste Type: Nonhazardous Solid Wastes/Influent or Solid Wastes that contain nonhazardous putrescible and non putrescible solid, semisolid, and liquid wastes (E.G., garbage, trash, refuse, paper, demolition and construction wastes, manure, vegetable or animal solid and semisolid waste).

Secondary Waste: Not reported

Secondary Waste Type: Not reported

Design Flow: 0

Baseline Flow: 0

Reclamation: No reclamation requirements associated with this facility.

POTW: The facility is not a POTW.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

 Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
 Violation Description: Failure to complete and electronically submit a site map with all required content.
 Violation Notes: Returned to compliance on 03/19/2019. A site map was not completed or submitted as part of the business plan. A site map shall contain a north orientation, loading areas, internal roads, adjacent streets, storm and sewer drains, access and exit points, emergency shutoffs, evacuation staging areas, hazardous material handling and storage areas, and emergency response equipment. If a site map element is not applicable for your facility then list it on the map and label as G NA". Immediately log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, upload the correct or updated information, and submit to the EHD for approval.

Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)
Violation Description: Failure to dispose of hazardous waste within 180 days (or 270 if waste is transported over 200 miles) for the generator who generates less than 1000 kilogram per month, but more than 100 kilograms per month.
Violation Notes: Returned to compliance on 05/17/2016. -A 55 gallon gray steel drum of used antifreeze was observed in the shop with no accumulation start date. No disposal records were available for this waste. -Oily liquid was observed in the metal spill containment for the used oil drum, filling it approximately halfway. Used oil filters were observed draining into this spill container. It could not be determined if this liquid was pumped out with the used oil disposal. -Liquid was observed in the metal spill containment for the used antifreeze and used oil filters, filling it approximately halfway. No disposal records were available for this waste. Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. Immediately contact a licensed hazardous waste hauler to dispose of these wastes under manifest and submit a copy of the manifest(s) to the EHD.

Violation Date: 4/18/2016
Citation: 22 CCR 12 66262.40(c) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(c)
Violation Description: Failure to determine if the waste generated is a hazardous waste and to maintain analysis results for three years.
Violation Notes: Returned to compliance on 05/17/2016. -When asked about oily absorbent disposal, Mr. Gonzalez stated that "normally we dump it in the garbage can." A determination which takes into account hazardous properties has not been made. -Metal fines generated from metal grinding are being disposed of in the garbage without first determining particle size or hazardous properties. Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately stop disposal of oily absorbent and metal fines to the trash, make a hazardous waste determination for these wastes, and manage them according to Title 22 hazardous waste regulations. Metal particles 100 microns or smaller must be handled as hazardous waste if the metal is determined to be a hazardous waste. Submit a statement and supporting documentation explaining how these wastes will be managed.

Violation Description: Failure to meet any of the following consolidated manifest requirements: 1) Legible receipts for each quantity of hazardous waste that is received from a generator, 2) The generator's information (name, address, identification number, contact person, telephone number of the generator, the signature of the generator or the generator's representative), 3) Date of the shipment, 4) The manifest number, 5) The volume or quantity of each waste stream received, 6) The name, address, and identification number of the authorized facility to which the hazardous waste will be transported, 7) The transporter's information (name, address, and identification number, the driver's signature), 8) A statement, signed by the generator, certifying that the generator has established a program to reduce the volume or quantity and toxicity of the hazardous waste to the degree economically practicable. 9) The generator shall retain each receipt for at least three years.
Violation Notes: Returned to compliance on 05/17/2016. Copies of hazardous waste disposal records for used antifreeze were not found on site. The only disposal records on site were for used oil disposal on 1/4/16 (60 gallons) and 9/8/15 (50 gallons). Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD.

Violation Description: Failure to properly manage used oil and/or fuel filters in accordance with the requirements.

Violation Notes: OBSERVATION: This facility generates drained used metal oil filters. A complete three year bill of lading record for used oil filter recycling was not observed during the inspection. According to Guillermo Gonzalez, Owner, Sacramento Waste Oil (disposal company) will take drained metal oil filters and not leave a disposal record if there is not a lot of filter waste. Bills of lading were not observed for the following date range 1/15/2017-1/15/2020. REGULATION GUIDANCE: Persons generating, transporting, or receiving used metal oil filters shall use a bill of lading to record the transfer of used oil filters. Bills of lading must indicate generator, transporter, and receiving company names, addresses, telephone numbers, the quantity and size of used oil filter containers transferred, and the date of transfer. Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-16-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, within 30 days of receiving the completed inspection report. Please be aware as of January 1, 2013, all businesses were required to submit all hazardous materials information online to the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov>. Be sure to include your hazardous material activity in the Businesses Activities section in CERS in addition to any other relevant activities and required fields. For assistance with CERS, contact Lisa Medina at 209-468-3455.

Violations:

Site ID: 24674
Site Name: DELTA STOCKTON PUMP
Violation Date: 1/20/2016
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to complete and electronically submit a site map with all required content.

Violation Notes: Returned to compliance on 01/20/2016. A site map has not been submitted. A site map shall contain a north orientation, loading areas, internal roads, adjacent streets, storm and sewer drains, access and exit points, emergency shutoffs, evacuation staging areas, hazardous material handling and storage areas, and emergency response equipment. Immediately log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, upload the correct or updated information, and submit to the EHD for approval. This was corrected on site.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violation Notes:
Returned to compliance on 04/05/2017. The following containers were observed with incomplete labeling: -A 55 gallon black steel drum of oily solids with the label on the removable lid instead of the drum and no accumulation start date. -A 55 gallon blue poly drum of plate developer with no accumulation start date. -A 55 gallon white poly drum of fountain solution with no accumulation start date. -A 55 gallon red steel drum of used oil was observed with no label. -A 55 gallon white poly drum of fountain solution was observed with no accumulation start date. -A 55 gallon black steel drum of waste ink was observed with a faded, illegible label. -5 used oil filters were observed stored on top of an oil drum uncontained, with no labeling. The site is managing their used oil filters as hazardous waste solids. All hazardous waste containers shall be marked with the following information: - the words G Hazardous WasteG - name and address of generator - hazardous properties (flammable, corrosive, [Truncated]

Violation Notes: and decontamination equipment to assure its proper operation in time of emergency.
Returned to compliance on 04/05/2017. Several spill pallets under hazardous waste drums throughout the facility were observed containing waste liquids. All facility communications or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment, where required, shall be tested and maintained as necessary to assure its proper operation in time of emergency. Spill containment shall be maintained clean and dry. Immediately remove all liquids from the spill pallets and manage in accordance with Title 22 regulations.

Violation Division: San Joaquin County Environmental Health

Site ID: 111845
Site Name: LMG STOCKTON INC
Violation Date: 3/8/2017
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173

Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violation Notes: Returned to compliance on 04/05/2017. A 55 gallon black steel drum of oily solids was observed with the contents overflowing and the lid unsecured and resting on top. All hazardous waste containers shall be closed at all times except when adding or removing waste. Immediately close this container and ensure all hazardous waste containers are closed when not adding or removing waste.

Site Name: LMG STOCKTON INC
Violation Date: 3/8/2017
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11

Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.

Violation Notes: Returned to compliance on 04/05/2017. -Metal fines generated from metal cutting and grinding are being disposed of without first determining particle size or hazardous properties. -Watery blue liquid was observed overflowing from a bucket near the fountain solution waste area. Staining on the ground indicated that this liquid has flowed into a drain. Mr. Cardosa stated he did not know what the liquid was or where the drain went. A pipe from the ceiling was observed draining into the bucket. According to Mr. Cardosa, the pipes come from the plate processing room upstairs and is used for disposal of clean waste water only, but he could not determine whether the liquid in the bucket and the staining on the ground was from a hazardous or non-hazardous waste point without additional research. Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately stop disposal of metal fines to the trash and stop disposal of the blue liquid to the drain system, make a

CERS

Site ID: 111845
Site Name: LMG STOCKTON INC
Violation Date: 3/8/2017
Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: Returned to compliance on 04/05/2017. Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. The following containers were observed without accumulation start dates and without recent disposal records: -A 55 gallon black steel drum of oily solids with the label on the removable lid instead of the drum. -A 55 gallon blue poly drum of plate developer. -A 55 gallon red steel drum of used oil was observed with no label. Since it cannot be determined how long these hazardous wastes have been on site, immediately contact a licensed hazardous waste hauler to dispose of these wastes under manifest. Submit a copy of the manifest(s) to the EHD within 30 days.
Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-08-2017
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by April 7, 2017. Please be aware as of January 1, 2013, all businesses are required to submit all hazardous materials information online to the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov>. Be sure to include your hazardous waste activity in the Businesses Activities section in CERS in addition to any other relevant activities and required fields. Note: This facility generated 6.53 tons of hazardous waste in 2016 and will be moved to a larger permit category (5-25 tons/year). This may result in increased permit fees. Documents reviewed: Uniform hazardous waste manifests, contingency plan Documents provided: Return to Compliance Certification form

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Site Name: ABC RADIATOR
Violation Date: 12/16/2014
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to establish and electronically submit an adequate training program in safety procedures in the event of a release or threatened release of a hazardous material.

Violation Notes: Returned to compliance on 12/17/2014. A training program was not submitted to CERS . Training programs for all employees and annual training, including refresher courses, shall include safety procedures for the event of a release or threatened release of a hazardous material, including, but not limited to, familiarity with the facility's emergency response plans and procedures. These training programs may take into consideration of each employee. Immediately prepare or update the facility's training program, log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, upload the correct or updated information, and submit to the EHD for approval. This is a Class II violation.

Violation Date: 8/6/2015
Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)

Violation Description: Failure to dispose of hazardous waste within 180 days (or 270 if waste is transported over 200 miles) for the generator who generates less than 1000 kilogram per month, but more than 100 kilograms per month.

Violation Notes: Returned to compliance on 11/17/2015. Sandblast waste was observed on site during the August 7, 2012 inspection and no disposal records were available to indicate disposal within the last three years. According to Mr. Fortune, he typically waits until his waste containers are full before contacting a hazardous waste hauler for disposal, which occurs about once a year. Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. Immediately contact a licensed hazardous waste hauler to dispose of this waste under manifest and submit a copy of the manifest to the EHD.

Site Name: ABC RADIATOR
Violation Date: 8/6/2015
Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2

Violation Description: Failure to meet any of the following consolidated manifest requirements: 1) Legible receipts for each quantity of hazardous waste that is received from a generator, 2) The generator's information (name, address, identification number, contact person, telephone number of the generator, the signature of the generator or the generator's representative), 3) Date of the shipment, 4) The manifest number, 5) The volume or quantity of each waste stream received, 6) The name, address, and identification number of the authorized facility to which the hazardous waste will be transported, 7) The transporter's information (name, address, and identification number, the driver's signature), 8) A statement, signed by the generator, certifying that the generator has established a program to reduce the volume or quantity and toxicity of the hazardous waste to the degree economically practicable. 9) The generator shall retain each receipt for at least three years.

Violation Notes: Returned to compliance on 11/17/2015. The sludge from the Hot Tank is being removed as metal contaminated sludge once a month using a consolidated manifesting procedure. The disposal records for this waste were available on site for the past three years. The 2012 manifests included manifest numbers: 008900126GBF, 000890143GBF, 001613353GBF. Disposal using a consolidated manifesting procedure is not eligible for this waste. The consolidated manifesting procedure may be used if the generator does not generate more than 1000 kilograms per month of hazardous waste (excluding used oil and oil/water separator waste) and only for the following waste streams: - used oil - contents of an oil/water separator - solids contaminated with used oil - brake fluid - antifreeze - antifreeze sludge - parts cleaning solvents, including aqueous cleaning solvents - hydroxide sludge contaminated solely with metals from a wastewater treatment process - "paint-related" wastes, including paints, [Truncated]

Violation Description: Failure to determine if the waste generated is a hazardous waste and to maintain analysis results for three years.
Violation Notes: Returned to compliance on 11/17/2015. Three 5 gallon plastic buckets and a smaller metal bucket of unknown liquids were observed in the yard. A water recycling unit was observed outside the facility with liquid on the ground around it and accumulated around the nearby drain pipes. According to Mr. Fortune, these drain pipes lead directly to the city sewer and the liquid is the water that overflows from the water recycling unit. No hazardous waste determination has been made for the unknown liquids or the oil-water separator liquid. Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately make a hazardous waste determination for the unknown liquids and the water recycling wastes, and manage them according to Title 22 hazardous waste regulations. Submit a statement and supporting documentation explaining how these wastes were managed.

Violations:

Site ID: 131001
Site Name: LKQ ACME TRUCK PARTS
Violation Date: 9/18/2015
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 10/19/2015. A blue steel container of used oil was observed in the front shop labeled as "used floor sweep" with the address for the other facility (1016 S. Wilson Way). A 55 gallon black steel drum of floor sweep was observed with no hazardous property or physical state marked. All hazardous waste containers shall be marked with the following information: - the words G Hazardous WasteG - name and address of generator - hazardous properties (ignitable, corrosive, reactive, toxic) - physical state (liquid, solid) - composition (contents) - accumulation start date Immediately label these containers with accurate information and ensure that all hazardous waste containers are marked with all the required information.
Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 131001
Site Name: LKQ ACME TRUCK PARTS
Violation Date: 9/18/2015
Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2
Violation Description: Failure to meet any of the following consolidated manifest requirements: 1) Legible receipts for each quantity of hazardous waste that is received from a generator, 2) The generator's information (name, address, identification number, contact person, telephone number of the generator, the signature of the generator or the generator's representative), 3) Date of the shipment, 4) The manifest number, 5) The volume or quantity of each waste stream received, 6) The name, address, and identification number of the authorized facility to which the hazardous waste will be transported, 7) The transporter's information (name, address, and identification number, the driver's signature), 8) A statement, signed by the generator, certifying that the generator has established a program to reduce the volume or quantity and toxicity of the hazardous waste to the degree economically practicable. 9) The generator shall retain each receipt for at least three years.
Violation Notes: Returned to compliance on 10/19/2015. The consolidated manifest receipt for used oil dated 9/16/15 was missing the following required information: the quantity or volume of the waste taken. All copies of each receipt shall contain all of the following information: - The name, address, identification number, contact person, and telephone number of the generator, and the signature of the generator or the generator's representative; - The date of the shipment; - The manifest number; - The volume or quantity of each waste stream received, its California and RCRA waste codes, the waste stream type listed in subdivision (c), and its proper shipping description, including the hazardous class and United Nations/North America (UN/NA)

Violation Source: CERS

Site ID: 131001
Site Name: LKQ ACME TRUCK PARTS
Violation Date: 3/26/2015
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violation Notes: Returned to compliance on 03/26/2015. 55 gallons of Red Start Degreaser were found on site that have not been reported to CERS. 10 cylinders of Oxygen (2,500 cubic feet) were found onsite and only 500 cubic feet reported to CERS. 10 cylinders (1000 Cubic feet) of Acetylene were found on site and only 500 cubic feet reported to CERS. Any material that meets or exceeds the reportable quantity shall be reported in the facility's business plan. Immediately log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, add the materials to the hazardous material inventory, and submit to the EHD for approval. This was corrected on site.

Violation Division: San Joaquin County Environmental Health
Violation Program: HMRRP
Violation Source: CERS

Site ID: 131001
Site Name: LKQ ACME TRUCK PARTS
Violation Date: 9/18/2015
Citation: 22 CCR 15 66265.16 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.16

Violation Description: Failure to provide employees within the first six months after the date of their employment, or assignment to the facility, or to work unsupervised, or to a new position at a facility with hazardous waste training to ensure employees are competent in the following areas: hazardous waste management procedures (including contingency plan implementation) relevant to the positions in which they are employed, emergency response and emergency equipment, and procedures for using, inspecting, repairing, and replacing facility emergency and monitoring equipment. In addition, the owner/operator shall ensure facility personnel take part in an annual review of the initial training and training records training records on current personnel shall be kept until closure of the facility. Training records on former employees shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position.

Violation Description: Chapter 15, Section(s) 66265.192(k)
Failure to include all required information in the tank system assessment.

Violation Notes: Returned to compliance on 06/19/2020. OBSERVATION: This facility has hazardous waste tanks with incomplete tank assessments. The tank assessment for the 500 gallon used antifreeze tank is missing: -Method used for determining material thickness -Sketch of tank with dimensions -Hazardous waste characteristic of waste in tank -Age of tank The tank assessment for the 1000 gallon used oil tank is missing: -Method used for determining material thickness -Sketch of tank with dimensions -Hazardous waste characteristic of waste in tank REGULATION GUIDANCE: Title 22 California Code of Regulations section 66265.192(a) Owners or operators of new tank systems or components shall ensure that the foundation, structural support, seams, connections, and pressure controls (if applicable) are adequately designed and that the tank system has sufficient structural strength, compatibility with the waste(s) to be transferred, stored or treated, and corrosion protection so that it will not collapse, rupture, or fail. The owner

Violation Date: 9/18/2015
Citation: 22 CCR 15 66265.16 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.16

Violation Description: Failure to provide employees within the first six months after the date of their employment, or assignment to the facility, or to work unsupervised, or to a new position at a facility with hazardous waste training to ensure employees are competent in the following areas: hazardous waste management procedures (including contingency plan implementation) relevant to the positions in which they are employed, emergency response and emergency equipment, and procedures for using, inspecting, repairing, and replacing facility emergency and monitoring equipment. In addition, the owner/operator shall ensure facility personnel take part in an annual review of the initial training and training records training records on current personnel shall be kept until closure of the facility. Training records on former employees shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position.

Violation Notes: Returned to compliance on 12/10/2015. The online "HazCom" training being offered to all personnel was last conducted in 2013 for 27 employees, and has not been conducted for three new hires. Site specific annual hazardous waste safety meetings are only being conducted for the foremen at the facility. Personnel who handle hazardous waste shall be trained within six months of assignment and take part in an annual review of the initial training received. At a minimum, the training program shall include contingency plan implementation, shall include instruction for employees that teaches them to do their duties relevant to the positions in which they are

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Violations:

Site ID: 64212
Site Name: SALVATION ARMY ADULT REHAB
Violation Date: 10/25/2018
Citation: HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5, Section(s) 25250.22
Violation Description: Failure to properly manage used oil and/or fuel filters in accordance with the requirements.
Violation Notes: Returned to compliance on 12/12/2018. Vehicles are being maintained by Diesel Performance, but maintenance receipts did not note the quantity of oil or filters that were being taken away. The receipts also did not note where Diesel Performance disposes of used oil and fuel filters. Bills of lading for the recycling of used oil filters for the last three years were not found on site. A copy of each bill of lading must be kept on site for at least three years. Immediately locate a copy of all bills of lading for used oil filters for the last three years, maintain them on site, and submit copies to the EHD.

Violation Date: 10/25/2018
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.
Violation Notes: Returned to compliance on 12/17/2018. Copies of consolidated manifests for the disposal of hazardous waste for October 2015 to October 2018 were not available for review. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD.

Site Name: SALVATION ARMY ADULT REHAB
Violation Date: 10/25/2018
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11
Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.
Violation Notes: Returned to compliance on 12/05/2018. There was an open container holding leaking bottles of antifreeze/coolant. Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately make a hazardous waste determination for the container of antifreeze/coolant, and manage it according the Title 22 hazardous waste regulations. Submit a statement and supporting documentation explaining how this waste was managed.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 10-25-2018
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: The amended report replaces the initial report. Starting September 1, 2018, all in-office CERS help will be provided at EHD hourly rate (\$152). To schedule an appointment, please call (209) 468-3420. Waste streams observed: e-Waste, Universal Waste, Antifreeze/Coolant Inspector provided RTC Certification, Flyer for free CUPA Classes and Modified Contingency Plan Template. An inspection report was provided to the facility operator on the day of inspection. The report was amended by the EHD. Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, within 30 days of receiving the amended inspection report.

 Violation Date: 7/12/2019
 Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173

Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violation Notes: Returned to compliance on 08/08/2019. (2) 55-gallon drums of used oil were found with the lids open. All hazardous waste containers shall be closed at all times except when adding or removing waste. Immediately close these containers and ensure all hazardous waste containers are closed when not adding or removing waste.

Violation Description: Chapter 12, Section(s) 66262.40(a)
Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violation Notes: Returned to compliance on 08/08/2019. Copies of uniform manifests for the disposal of hazardous waste for July 12, 2016-July 12, 2019 were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Please provide the used oil, used oil filter and other hazardous waste disposal records for the dates July 12, 2016 to July 12, 2019, maintain them on site, and submit copies to the EHD.

Violation Date: 7/12/2019
Citation: 40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.31

Violation Description: Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.

Violation Notes: Returned to compliance on 08/08/2019. (2) 55-gallon drums of used oil had oil on top of the lids. Facilities shall be maintained and operated to minimize the possibility of a fire, explosion, or release of hazardous waste to air, soil, or surface water which could threaten human health or the environment. Immediately clean the oil off the drums, and manage according to Title 22 hazardous waste regulations. Submit a statement and supporting documentation explaining how this waste was managed.

Violation Date: 7/20/2017
Citation: 22 CCR 23 66273.35 - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.35

Violation Description: Failure to accumulate universal waste for one year or less and to demonstrate the length of time that the universal waste has been accumulated from the date it became a waste or was received.

Violation Notes: Returned to compliance on 07/31/2019. UW lamps were found all over the property. Lamps were stored in trash cans, cardboard boxes, disintegrated cardboard boxes outside, shrink-wrapped on pallets stored on racks several feet in the air. They were stored in the maintenance shop, the overflow building, outside on pallets, outside in plastic trash containers and in the toilet storage room. Multiple broken bulbs were seen. Due to safety issues and blocked access inspector could not get an accurate count of the bulbs but it is estimated 800-1000 waste bulbs were identified on the property. Universal waste may be accumulated for no longer than one year from the date the universal waste was generated. The universal waste handler shall be able to demonstrate the length of time that the universal waste has been accumulated. Since it could not be demonstrated how long this waste was stored on site, immediately dispose of this waste and submit a copy of the disposal receipt to the EHD.

Violation Date: 5/9/2017
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violation Notes: Returned to compliance on 07/26/2019. Reportable amounts of methanol, car wash detergent, waste oil, waste diesel, acetone, propane and containers of unknown material were found on site that have not been reported. Any material that meets or exceeds the reportable quantity shall be reported in the facility's business plan. Immediately log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, add the materials to the hazardous material inventory, and submit to the EHD for approval.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Description: 6.95, Section(s) 25508(a)(1)
Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violation Notes: Returned to compliance on 06/20/2018. The facility's business plan was not submitted electronically to the California Environmental Reporting System (CERS). As of January 1, 2013, all businesses were required to submit all business plans electronically. Immediately log into the CERS at <http://cers.calepa.ca.gov/>, enter the correct or updated information, and submit to the EHD for approval.

Site Name: California Auto Tech
Violation Date: 3/16/2018
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 07/03/2018. Employee training records were not available at the time of inspection. The business plan shall include provisions for ensuring that appropriate personnel receive initial and annual refresher training. This training shall be documented electronically or by hard copy and shall be made available for a minimum of three years. Immediately provide employee training for appropriate personnel and submit a copy of the training records to the EHD.

Violation Division: San Joaquin County Environmental Health

Site ID: 438481
Site Name: California Auto Tech
Violation Date: 12/31/2018
Citation: 40 CFR 1 262.34(d)(5)(ii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(ii)

Violation Description: Failure to post the following information next to the telephone: (A) The name and telephone number of the emergency coordinator; (B) Location of fire extinguishers and spill control material, and, if present, fire alarm; and (C) The telephone number of the fire department, unless the facility has a direct alarm.

Violation Notes: Returned to compliance on 12/31/2018. An emergency coordinator and modified contingency plan information is lacking. There must be at least one emergency coordinator on site or on call to coordinate emergency response measures, and the following information must be posted by a phone: the name and phone number of the emergency coordinator; location of fire extinguishers, spill control equipment, and if present, fire alarm; and the phone number of the fire department, unless the facility has a direct alarm. Immediately appoint an emergency coordinator and post the required information by a phone. A form is provided that can be used for this purpose. This was corrected on site.

Site ID: 88883
Site Name: A&A TRANSMISSION
Violation Date: 10/31/2018
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12

Violation Description: Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violation Notes: Returned to compliance on 11/29/2018. This facility does not have a valid ID number to manage hazardous waste. A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without an ID number. If you or your business generates more than 100 kg of RCRA hazardous waste and/or more than one kg of acutely hazardous waste, then you need to obtain an EPA ID number. All others must obtain a State ID number. Go to the DTSC web site <http://www.dtsc.ca.gov/IDManifest/PERMHWDID.cfm> for the form to apply for an ID number. Immediately obtain an ID number to manage hazardous waste and submit evidence to the EHD.

Violation Division: San Joaquin County Environmental Health

Violation Date: 10/31/2018
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: Returned to compliance on 03/11/2019. Two blue 55 gallons steel drums containing used oil were observed (full) with an illegible hazardous waste label and one black sealed drum of used oil with no labeling at all. Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. [DESCRIBE CONTAINERS / TANKS LACKING ACCUMULATION START DATE]. Since it cannot be determined how long the hazardous waste has been on site, immediately contact a licensed hazardous waste hauler to dispose of this waste under manifest. Submit a copy of the manifest to the EHD within 30 days.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.

Violation Notes: Returned to compliance on 09/11/2019. OBSERVATIONS: According to Arturo Sanchez, Owner, rags contaminated with paint, sanding dust, and old paint waste is thrown away into the trash. REGULATION: Any person who generates a waste shall determine if the waste is a hazardous waste. CORRECTIVE ACTION: Submit a statement and supporting documentation explaining how this waste will be managed. Provide hazardous waste determination information if the contaminated rags, sanding dust and paint are deemed non-hazardous.

Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-22-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: An inspection report was provided to the facility operator on the day of inspection. The report was amended by the EHD. The amended report replaces the initial report. Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, within 30 days of receiving the amended inspection report. The following changes have been made: -Item 101 has been omitted. See item 102. -Item 102 has been added to include the following "According to Arturo Sanchez, Owner, rags contaminated with paint, sanding dust, and old paint waste is thrown away into the trash."

Violation Date: 8/14/2019
Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2
Violation Description: Failure of a generator of hazardous waste that meets the conditions to be transported on a consolidated manifest to comply with one or more of the required consolidated manifesting procedures and retain copies of receipts for three years.
Violation Notes: Returned to compliance on 12/20/2019. OBSERVATIONS: Copies of hazardous waste disposal records including sanding dust, used rags, used paint filters from August 14, 2016 to August 14, 2019 were not found on site. REGULATION: Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for

Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.

Violation Notes: Returned to compliance on 09/12/2019. OBSERVATIONS: According to Mike Galvan, manager, rags and antifreeze are taken to Autozone. Autozone is not an authorized collection point for soiled rags or used antifreeze. Rags contaminated with hazardous waste must be laundered by an industrial laundry or handled as hazardous waste or a hazardous waste determination must be made to demonstrate the rags are not hazardous waste. Used antifreeze can be taken to the San Joaquin County Small Business Hazardous Waste facility. Obtain a receipt and keep in your records for three years. Alternatively, demonstrate that the antifreeze is not hazardous waste. REGULATION: Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately make a hazardous waste determination for the rags and used antifreeze and manage it according the Title 22 hazardous waste regulations. CORRECTIVE ACTION: Submit to EHD a statement and supporting documentation explaining how this waste will be managed. Provide h

Site ID: 562051
Site Name: WRENCHERS
Violation Date: 7/22/2019
Citation: 40 CFR 1 265.33 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.33

Violation Description: Failure to test and maintain as necessary all facility communications or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment to assure its proper operation in time of emergency.

Violation Notes: Returned to compliance on 09/20/2019. OBSERVATION: The facility does not have spill control equipment in the paint booth area (suites 28/29) REGULATION: All facilities shall be equipped with an internal communication or alarm system, a device capable of calling outside emergency help, spill control equipment, and decontamination equipment at all times. CORRECTIVE ACTION: Immediately provide spill control equipment

Violation Source: CERS

Site ID: 562051
Site Name: WRENCHERS
Violation Date: 7/22/2019
Citation: 22 CCR 23 66273.35 - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.35

Violation Description: Failure to accumulate universal waste for one year or less and to demonstrate the length of time that the universal waste has been accumulated from the date it became a waste or was received.

Violation Notes: Returned to compliance on 09/20/2019. OBSERVATION: Ten 8-foot long universal waste lamps were in the storage room in unlabeled boxes. REGULATION: Universal waste may be accumulated for no longer than one year from the date the universal waste was generated. The universal waste handler shall be able to demonstrate the length of time that the universal waste has been accumulated. CORRECTIVE ACTION: Since it could not be demonstrated how long this waste was stored on site, immediately dispose of this UW and submit a copy of the disposal receipt to the EHD.

Violation Description: 6.11, Section(s) 25404(e)(4)
Failure to report program data electronically.

Violation Notes: Returned to compliance on 12/10/2019. OBSERVATION: A complete submission of information has not been made to the California Electronic Reporting System (CERS) for the hazardous waste program. CERS ID is 10185003. REGULATION: Beginning January 1, 2013, all businesses are required to submit all new (or any changes to existing) hazardous waste information online to the CERS at <http://cers.calepa.ca.gov>. CORRECTIVE ACTION: Complete the CERS information including your hazardous waste generator activity in the Businesses Activities section in CERS. Complete all relevant activities and required fields.

Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 562051
Site Name: WRENCHERS
Violation Date: 7/22/2019
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 12/02/2019. OBSERVATIONS: Two 55-gallon drums full of used oil in suite 22. Barry Vlught stated that this oil is his responsibility and was abandoned by a previous tenant. One 55-gallon drum which contained paint, a fluorescent tube (broken), and an oil filter stored in the storage area across from suite 23 and labeled as hazardous waste. REGULATION: Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. CORRECTIVE ACTION: Immediately dispose of this hazardous waste in compliance with Title 22 California Code of Regulations and submit a copy of the disposal record to this department within 30 days.

Violation Division: San Joaquin County Environmental Health

Violation Date: 7/22/2019
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12

Violation Description: Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violation Notes: Returned to compliance on 09/20/2019. OBSERVATIONS: The ID number for this facility, CAL000332539, is inactive and has contact Lee Helms. The current owner is Barry Vlught. REGULATION: A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without an active, valid ID number. If you or your business generates more than 100 kg of RCRA hazardous waste and/or more than one kg of acutely hazardous waste, then you need to obtain an EPA ID number. All others must obtain a State ID number. Go to the DTSC web site <https://dtsc.ca.gov/apply-for-hazardous-waste-epa-id-number/> for the form to apply for an ID number. CORRECTIVE ACTION: Immediately obtain an ID number to manage hazardous waste and submit evidence to the EHD.

Violation Division: San Joaquin County Environmental Health

Site Name: WRENCHERS
Violation Date: 7/22/2019
Citation: 40 CFR 1 262.34(d)(5)(ii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(ii)

Violation Description: Failure to post the following information next to the telephone: (A) The name and telephone number of the emergency coordinator; (B) Location of fire extinguishers and spill control material, and, if present, fire alarm; and (C) The telephone number of the fire department, unless the facility has a direct alarm.

Violation Notes: Returned to compliance on 09/20/2019. OBSERVATION: A complete modified contingency plan information is not posted at the facility. REGULATION: There must be at least one emergency coordinator on site or on call to coordinate emergency response measures, and the following information must be posted by a phone: the name and phone number of the emergency coordinator; location of fire extinguishers, spill control equipment, and if present, fire alarm; and the phone number of the fire department, unless the facility has a direct alarm. CORRECTIVE ACTION: A modified contingency plan was filled out and posted during the inspection but no spill control equipment was included on the document. Obtain spill control equipment and include the location on the modified contingency plan.

Site Name: WRENCHERS
Violation Date: 7/22/2019
Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Description: Hazardous Waste Generator Program - Operations/Maintenance - General
Violation Notes: Returned to compliance on 09/20/2019. OBSERVATION: Ten 8-foot long universal waste lamps were in the storage room. Two lamps were in boxes that could not be closed. REGULATION: Universal waste (UW) lamps shall be stored in compatible, closed containers. CORRECTION: Store UW lamps in closed containers.

Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-22-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: An inspection checklist was provided to the facility operator on the day of inspection. The EHD has written the complete report which replaces the initial checklist. Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, within 30 days of receiving the complete inspection report. Waste streams: paint booth filters; various abandoned wastes from tenants including used oil, paint waste, fluorescent tubes, building paint. Inspection was completed on August 8, 2019 by inspecting a storage room next to the paint booth. It was locked during the initial inspection. Locations inspected on the property include suites 28 and 29, and the fenced storage area across the driveway from suite 23.

Citation: HSC 6.11 25404(e)(4) - California Health and Safety Code, Chapter 6.11, Section(s) 25404(e)(4)
Violation Description: Failure to report program data electronically.
Violation Notes: Returned to compliance on 04/16/2020. OBSERVATIONS: A submission to the California Electronic Reporting System (CERS) for the hazardous waste program has not been made. REGULATION: Beginning January 1, 2013, all businesses are required to submit all new (or any changes to existing) hazardous waste information online to the CERS at <http://cers.calepa.ca.gov>. CORRECTIVE ACTION: Immediately create a CERS account and make the required submittals. Be sure to include your hazardous waste activity in the Businesses Activities section in CERS in addition to any other relevant activities and required fields.

Violation Date: 7/19/2019
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11
Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.
Violation Notes: Returned to compliance on 04/14/2020. OBSERVATIONS: According to Ramses Lopez, Owner, contaminated paint rags and sanding waste are thrown away into the trash. REGULATION: Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately make a hazardous waste determination for the waste absorbent, and manage it according to the Title 22 hazardous waste regulations. CORRECTIVE ACTION: Submit a statement and supporting documentation explaining how these wastes will be managed. Provide hazardous waste determination information for the wastes that are deemed non-hazardous.

Violation Date: 7/19/2019
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12
Violation Description: Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.
Violation Notes: Returned to compliance on 09/09/2019. OBSERVATIONS: This facility does not have a valid ID number to manage hazardous waste. REGULATION: A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without an ID number. If you or your business generates more than 100 kg of RCRA hazardous waste and/or more than one kg of acutely hazardous waste, then you need to obtain an EPA ID number. All others must obtain a State ID number. Go to the DTSC web site <https://dtsc.ca.gov/apply-for-hazardous-waste-epa-id-number/> for the form to apply for an ID number. CORRECTIVE ACTION: Immediately obtain an ID number to manage hazardous waste and submit evidence to the EHD

Violation Date: 12/9/2015
Citation: HSC 6.11 25404(e)(4) - California Health and Safety Code, Chapter 6.11, Section(s) 25404(e)(4)
Violation Description: Failure to report program data electronically.
Violation Notes: Returned to compliance on 01/27/2020. A submission to the California Electronic Reporting System (CERS) for the hazardous waste program has not been made. Beginning January 1, 2013, all businesses are required to submit all new (or any changes to existing) hazardous waste information online to the CERS at <http://cers.calepa.ca.gov>. Be sure to include your hazardous waste activity in the Businesses Activities section in CERS in addition to any other relevant activities and required fields.

Site Name: Aztlan Ornamental Iron
Violation Date: 12/15/2015
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Description: Failure to annually review and electronically certify that the business plan is complete, accurate, and up-to-date.
Violation Notes: Returned to compliance on 12/15/2015. The business plan information has not been reviewed and resubmitted in the California Environmental Reporting System (CERS) annually. The hazardous materials inventory shall be submitted by January 15 of each calendar year and may be submitted beginning November 1 of the previous year. Immediately log into the CERS at <http://cers.calepa.ca.gov/>, enter the correct or updated information, and submit to the EHD for approval. This was corrected on site.
Violation Division: San Joaquin County Environmental Health
Violation Program: HMRRP
Violation Source: CERS

Site ID: 361968
Site Name: Aztlan Ornamental Iron
Violation Date: 1/27/2020
Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Description: Hazardous Waste Generator Program - Administration/Documentation - General
Violation Notes: Returned to compliance on 02/25/2020. OBSERVATION: The facility is processing universal waste aerosol cans, without developing and implementing a written operating procedure detailing the safe processing of universal waste aerosol cans. According to Jose Macias, owner, he punctures the pressurized aerosol cans manually using a hammer, crushes and then recycles the cans. According to Macias, the recycling facility does not accept aerosol cans that are not punctured. REGULATION GUIDANCE: (4) The handler ensures that the processing operations are performed safely by developing and implementing a written operating procedure detailing the safe processing of universal waste aerosol cans. This procedure shall, at a minimum, include all of the following: (A) The type of equipment to be used to process the universal waste aerosol cans safely. (B) Operation and maintenance of the unit. (C) Segregation of incompatible wastes. (D) Proper waste management practices, including ensuring that flammable wastes are stored aw
Violation Division: San Joaquin County Environmental Health

Violation Date: 12/9/2015
Citation: HSC 6.5 25189.5(a) - California Health and Safety Code, Chapter 6.5, Section(s) 25189.5(a)
Violation Description: Failure to properly dispose of hazardous waste at an authorized location.
Violation Notes: Returned to compliance on 01/27/2020. According to Mr. Jose Macias, the used paint solvent is used as a starting fluid for a fire in the "fireplace heater" at his facility. The used paint solvent is generated from cleaning paint guns that uses oil-based enamel paint with acetone according to Mr. Jose Macias. Hazardous wastes shall be

disposed of only by transportation to a permitted hazardous waste treatment, storage, and disposal facility (TSDF). Immediately cease disposal of hazardous waste to and ensure that all future waste is hauled by a licensed hazardous waste transporter to a permitted TSDF.

Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 361968
Site Name: Aztlan Ornamental Iron
Violation Date: 1/27/2020
Citation: 22 CCR 23 66273.32(a) - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.32(a)

Violation Description: Failure of a universal waste handler to send written notification of universal waste management to the USEPA Regional Administrator and obtain a federal ID Number prior to accumulating 5,000 kilograms or more of universal waste.

Violation Notes: Returned to compliance on 02/25/2020. OBSERVATION: This facility disposed of universal waste at an unauthorized point. According to Jose Macias, owner, he takes his non-empty aerosol cans to Contract Coatings / Velvacon, located at 706 E Main St in Stockton, CA, for disposal. Jose stated that the owner of Contract Coatings / Velvacon, Arland Williams, disposes of Jose's waste paint and non-empty aerosol cans for him. Contract Coatings / Velvacon is a part of the California's Architectural Paint Recovery Program, which allows paint products, five gallons or less, to be dropped-off for recycling. This program does not cover aerosol paints or empty paint containers. REGULATION GUIDANCE: (a) Household universal waste generator exemption. A person who maintains a household, as defined in section 66273.9, and who produces universal waste derived from that household, is a generator, as defined in section 66273.9, of household universal waste. Such a generator is exempt from the requirements of this chapter applicable to

Violation Description: Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violation Notes: Returned to compliance on 02/25/2020. OBSERVATION: This business does not have a hazardous waste ID number in the California Department of Toxic Substances Control (DTSC) database. REGULATION GUIDANCE: A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without having received an Environmental Protection Agency (EPA) Identification (ID) Number. A State EPA ID number is required for generators of less than 100 kg RCRA hazardous waste per month, less than one kg of acutely hazardous waste per month or any amount of non-RCRA hazardous waste. ID numbers are unique to a business and site location. CORRECTIVE ACTION: Go to the DTSC web site at <https://dtsc.ca.gov/apply-for-hazardous-waste-epa-id-number/> to obtain a State ID number . Immediately apply for your ID number and submit evidence to the San Joaquin County Environmental Health Department within 30 days.

Violation Description: Failure to have a business plan readily available to personnel of the business or the unified program facility with responsibilities for emergency response or training.

Violation Notes: Returned to compliance on 06/06/2019. Facility could not provide the Emergency Response Plan and the Chemical inventory upon request. The emergency response plans and procedures, the inventory of information required by this article, and the site map required by this section shall be readily available to personnel of the business or the unified program facility with responsibilities for emergency response or training pursuant to this section. Immediately make arrangements to have the business plan readily available for review. This was corrected on site.

Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)

Violation Description: Failure to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for three years.

Violation Notes: Returned to compliance on 01/27/2020. Copies of uniform manifests for the disposal of hazardous waste for 2014 and 2015 were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD.

Violation Description: Failure to post, next to the telephone, Emergency Information (SQG) containing the location of emergency equipment, contact names and numbers.

Violation Notes: Returned to compliance on 01/27/2020. An emergency coordinator and modified contingency plan information is lacking. There must be at least one emergency coordinator on site or on call to coordinate emergency response measures, and the following information must be posted by a phone: the name and phone number of the emergency coordinator; location of fire extinguishers, spill control equipment, and if present, fire alarm; and the phone number of the fire department, unless the facility has a direct alarm. Immediately appoint an emergency coordinator and post the required information by a phone. A form is provided that can be used for this purpose.

Violation Description: Failure to complete and electronically submit a site map with all required content.

Violation Notes: Returned to compliance on 07/23/2019. The map does not show/address loading areas, internal roads, storm and sewer drains, access and exit points (from the street), and emergency shutoffs. A site map shall contain a north orientation, loading areas, internal roads, adjacent streets, storm and sewer drains, access and exit points, emergency shutoffs, evacuation staging areas, hazardous material handling and storage areas, and emergency response equipment. If a site map element is not applicable for your facility then list it on the map and label as "G NA". Immediately log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, upload the correct or updated information, and submit to the EHD for approval.

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 07/25/2019. Employee training records were not available at the time of inspection. The business plan shall include provisions for ensuring that appropriate personnel receive initial and annual refresher training. This training shall be documented electronically or by hard copy and shall be made available for a minimum of three years. Immediately provide employee training for appropriate personnel and submit a copy of the training records to the EHD.

Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes:

Notes: - The inspection report was amended by updating the "Observation" and "Corrective Action" for Violation 102, and adding Violations 708, 713, 714, and 721. Additionally, the following notes were added at the end of the report: - The amount of hazardous waste generated in the last calendar year could not be determined due to the lack of disposal records on-site at the time of inspection. - Jose Macias, owner, could not provide records showing that he takes his waste paint to Contract Coatings in Stockton for recycling. SJC EHD recommends that the business maintain records showing the amount and type of paint that is taken for recycling, as well as the location where and the date the paint is taken. An inspection report was provided to the facility operator on the day of inspection. The report was amended by the EHD on 1/28/2020. The amended report replaces the initial report. Complete and submit a copy of the Return to Compliance Certification form to the EHD with a s

Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, within 30 days of receiving the completed inspection report. Facility does not have internal roads, emergency shutoffs and these elements were not addressed on the site map. Please address this by either writing G NAG for not applicable or a statement that says the element is not on site. Please correct this by the next submittal. Copy of HMBP was provided to Mr. Macias at the time of inspection. Starting September 1, 2018, all in-office CERS help will be provided at EHD hourly rate (\$152). To schedule an appointment, please call (209) 468-3420.
