Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. **NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OR DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT.** Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1906 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

E HAZELTON AVE 1996

E HARPER ST TO HEATHER DR

Table listing addresses and phone numbers for E HARPER ST area, including 3144 Sanginetti Ralph, 3168 Jacobson, 3226 Mandella James, etc.

HARPERS FERRY DR (S) 95219

Table listing addresses and phone numbers for HARPERS FERRY DR (S) area, including 3144 Sanginetti Ralph, 3168 Jacobson, 3226 Mandella James, etc.

HARRIS AVE (S) 95206

Table listing addresses and phone numbers for HARRIS AVE (S) area, including 2835 Sanchez Victor J., 2844 Ybarra Herbert H., etc.

HARRISBURG PL (S) 95207

Table listing addresses and phone numbers for HARRISBURG PL (S) area, including 6029 Schneider, 6107 Deane Bruce, 6212 Taber Ben H., etc.

HARRIS ST (L) 95236

Table listing addresses and phone numbers for HARRIS ST (L) area, including 5045 Winlers William, 5068 Saccone Richard, 5071 Piacentini Fred, etc.

N HARRISON ST (S) 95203

Table listing addresses and phone numbers for N HARRISON ST (S) area, including 337 STOCKTON INDUSTRIAL SUPPLY CO., 341 MCINTYS ENGRAVING-STOCKTON, 345 NIGHT HAWK VIDEO, etc.

Table listing addresses and phone numbers for N HARRISON ST area, including 1421 Rodriguez Frank, 1428 Avila John M., 1435 Espinosa Alvin, etc.

S HARRISON ST (S) 95203

Table listing addresses and phone numbers for S HARRISON ST (S) area, including 605 J P SILVEY TRUCKING, 503 Medina Anasoa, 937 Cazares Corona, etc.

S HARROLD AVE (E) 95220

Table listing addresses and phone numbers for S HARROLD AVE (E) area, including 1940 Yates J., 1942 Garcia Jose G., 1942 Garcia Jose G., etc.

HART LN (M) 95336

Table listing addresses and phone numbers for HART LN (M) area, including 18185 Hall Vernon L., 18303 Watson Susan, 18303 Watson Susan, etc.

HARVEST DR (R) 95366

Table listing addresses and phone numbers for HARVEST DR (R) area, including 1476 Swales Timothy, 1507 Steingina John, 1507 Steingina John, etc.

HARVEST LN (TR) 95376

Table listing addresses and phone numbers for HARVEST LN (TR) area, including 1400 Monson Pamela, 1400 Monson Pamela, 1451 Galtner Terry R., etc.

HARVEY AVE (S) 95206

Table listing addresses and phone numbers for HARVEY AVE (S) area, including 3418 Edmonds H L., 3418 Edmonds H L., 3418 Edmonds H L., etc.

Table listing addresses and phone numbers for HARVEY AVE area, including 3426 Brown Lester E., 3426 Brown Lester E., 3426 Brown Lester E., etc.

HARWOOD LN (S) 95212

Table listing addresses and phone numbers for HARWOOD LN (S) area, including 5415 Tassano Al Jr., 5415 Tassano Al Jr., 5415 Tassano Al Jr., etc.

HASKELL LN (E) 95320

Table listing addresses and phone numbers for HASKELL LN (E) area, including 17001 Perce Gamell, 17014 PATRICK B., 17014 PATRICK B., etc.

HASTINGS CT (S) 95210

Table listing addresses and phone numbers for HASTINGS CT (S) area, including 8626 Smith Pinkal, 8626 Smith Pinkal, 8626 Smith Pinkal, etc.

HAT CT (S) 95206

Table listing addresses and phone numbers for HAT CT (S) area, including 3034 Hinchner Robert, 3034 Hinchner Robert, 3034 Hinchner Robert, etc.

HATCHCOVER PL (M) 95337

Table listing addresses and phone numbers for HATCHCOVER PL (M) area, including 1006 Gonzales Ray, 1022 Sinclair Conrad L., 1022 Sinclair Conrad L., etc.

HATCHERS CIR (S) 95219

Table listing addresses and phone numbers for HATCHERS CIR (S) area, including 3707 Schmidt J R., 3711 Shields J F., 3714 Brown Ronald C., etc.

HAVENBROOK DR (TR) 95376

Table listing addresses and phone numbers for HAVENBROOK DR (TR) area, including 1040 Simon Diane, 1040 Simon Diane, 1040 Simon Diane, etc.

HAVENHILL WAY (S) 95209

Table listing addresses and phone numbers for HAVENHILL WAY (S) area, including 1227 Winnetta M., 1308 Riley Mike, 1321 Crocker Greg, etc.

HAWAI AVE (S) 95206

Table listing addresses and phone numbers for HAWAI AVE (S) area, including 2850 Garcia Carmen, 2850 Garcia Carmen, 2850 Garcia Carmen, etc.

HAWES CT (L) 95237

Table listing addresses and phone numbers for HAWES CT (L) area, including 13430 Bauer Kenton, 13430 Bauer Kenton, 13430 Bauer Kenton, etc.

HAWES LN (R) 95366

Table listing addresses and phone numbers for HAWES LN (R) area, including 563 McIntosh Richard, 563 McIntosh Richard, 563 McIntosh Richard, etc.

HAWES ST (M) 95336

Table listing addresses and phone numbers for HAWES ST (M) area, including 531 McClinton John F., 531 McClinton John F., 531 McClinton John F., etc.

Table listing addresses and phone numbers for HAWES ST (M) area, including 531 McClinton John F., 531 McClinton John F., 531 McClinton John F., etc.

E HAWTHORNE AVE (S) 95204

Table listing addresses and phone numbers for E HAWTHORNE AVE (S) area, including 403 Boyer William J., 414 Santos Edward L., 425 Friend B J., etc.

HAWTHORNE DR (TR) 95376

Table listing addresses and phone numbers for HAWTHORNE DR (TR) area, including 150 Rickgers Cynthia, 150 Rickgers Cynthia, 150 Rickgers Cynthia, etc.

HAYS RD (M) 95337

Table listing addresses and phone numbers for HAYS RD (M) area, including 23443 Hildebrand Alexander, 23478 Y Navro Rosa, 23478 Y Navro Rosa, etc.

HAZEL RD (S) 95212

Table listing addresses and phone numbers for HAZEL RD (S) area, including 9976 Lucas George, 9976 Lucas George, 9976 Lucas George, etc.

HAZELHURST DR (E) 95320

Table listing addresses and phone numbers for HAZELHURST DR (E) area, including 18045 Holmanwater John E., 18045 Holmanwater John E., 18045 Holmanwater John E., etc.

E HAZELTON AVE (S) 95203

Table listing addresses and phone numbers for E HAZELTON AVE (S) area, including 203 DAGUIJOY LEGIONARIOS, 219 Long Tom, 308 CHINA NOODLE FACTORY, etc.

HAZELWOOD AVE (S) 95207

Table listing addresses and phone numbers for HAZELWOOD AVE (S) area, including 2501 Manso David A., 2521 Swearingen Barney, 2621 Hanko Willis H., etc.

HEATHER CT (M) 95336

Table listing addresses and phone numbers for HEATHER CT (M) area, including 1446 Loch Mac, 1456 STACY MC CLEARY, 1456 STACY MC CLEARY, etc.

HEATHER CT (TR) 95376

Table listing addresses and phone numbers for HEATHER CT (TR) area, including 1851 Davis Donald, 1851 Davis Donald, 1851 Davis Donald, etc.

HEATHER DR (S) 95207

Table listing addresses and phone numbers for HEATHER DR (S) area, including 7512 Cline Kenneth D., 7521 Holstein David L., 7530 Cooper James D., etc.

Table listing addresses and phone numbers for HEATHER DR area, including 1446 Loch Mac, 1456 STACY MC CLEARY, 1456 STACY MC CLEARY, etc.

HEATHERBROOK 95336

Table listing addresses and phone numbers for HEATHERBROOK area, including 2338 Howell Catherine, 2338 Howell Catherine, 2338 Howell Catherine, etc.

HEINZ ST (S) 95206

Table listing addresses and phone numbers for HEINZ ST (S) area, including 270 L B FOSTER BUSINESS 1, 270 L B FOSTER BUSINESS 1, 270 L B FOSTER BUSINESS 1, etc.

HELEN AVE (T) 95206

Table listing addresses and phone numbers for HELEN AVE (T) area, including 426 Garoz Albert, 426 Garoz Albert, 426 Garoz Albert, etc.

HELEN CT (M) 95336

Table listing addresses and phone numbers for HELEN CT (M) area, including 625 Cline Richard, 625 Cline Richard, 625 Cline Richard, etc.

HELEN DR (M) 95336

Table listing addresses and phone numbers for HELEN DR (M) area, including 605 Wade Ann, 605 Wade Ann, 605 Wade Ann, etc.

HELEN LN (S) 95206

Table listing addresses and phone numbers for HELEN LN (S) area, including 610 Salazar Simo, 610 Salazar Simo, 610 Salazar Simo, etc.

HEMETS AVE 1

Table listing addresses and phone numbers for HEMETS AVE area, including 5818 5th Fred Jr, 5818 5th Fred Jr, 5818 5th Fred Jr, etc.

HEMLOCK I 95206

Table listing addresses and phone numbers for HEMLOCK I area, including 119 Walt Jim, 119 Walt Jim, 119 Walt Jim, etc.

HEMLOCK II 95206

Table listing addresses and phone numbers for HEMLOCK II area, including 143 Kehler Jus, 143 Kehler Jus, 143 Kehler Jus, etc.

HEMLOCK III 95206

Table listing addresses and phone numbers for HEMLOCK III area, including 189 John Philip, 189 John Philip, 189 John Philip, etc.

HEMLOCK IV 95206

Table listing addresses and phone numbers for HEMLOCK IV area, including 1405 Cline Kenneth D., 1405 Cline Kenneth D., 1405 Cline Kenneth D., etc.

E SCOTTS AVE 1996

Contact: Natalie Bogan

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by HDR Engineering Inc. were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDR's Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Search Results:**Coordinates:**

P.O.#	10217993	Latitude:	37.946759 37° 56' 48" North
Project:	Stockton Diamond	Longitude:	-121.275848 -121° 16' 33" West
		UTM Zone:	Zone 10 North
		UTM X Meters:	651490.94
		UTM Y Meters:	4201309.72
		Elevation:	18.00' above sea level

Maps Provided:

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

RGA LUST..... Recovered Government Archive Leaking Underground Storage Tank

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 07/29/2020 has revealed that there are 6 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 06/15/2020 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 06/15/2020 has revealed that there are 5 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/15/2020 has revealed that there are 19 RCRA-SQG sites within approximately 0.25 miles of the target property.

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 07/27/2020 has revealed that there are

State and tribal landfill and/or solid waste disposal site lists

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the SWF/LF list, as provided by EDR, has revealed that there is 1 SWF/LF site within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CPS-SLIC list, as provided by EDR, has revealed that there are 7 CPS-SLIC sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 94 UST sites within approximately 0.25 miles of the target property.

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are

EXECUTIVE SUMMARY

74 SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/15/2020 has revealed that there are 96 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

FUDS: The Listing includes locations of Formerly Used Defense Sites Properties where the US Army Corps Of Engineers is actively working or will take necessary cleanup actions.

A review of the FUDS list, as provided by EDR, and dated 05/13/2020 has revealed that there is 1 FUDS site within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
CLASSIFICATION YARD		S 1/2 - 1 (0.983 mi.)	661	2502

Cortese: The sites for the list are designated by the State Water Resource Control Board (LUST), the Integrated Waste Board (SWF/LS), and the Department of Toxic Substances Control (Cal-Sites).

A review of the Cortese list, as provided by EDR, and dated 06/22/2020 has revealed that there are 83 Cortese sites within approximately 0.5 miles of the target property.

DRYCLEANERS: A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners' agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

A review of the DRYCLEANERS list, as provided by EDR, has revealed that there are 5 DRYCLEANERS sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

HWT: A listing of hazardous waste transporters. In California, unless specifically exempted, it is unlawful for any person to transport hazardous wastes unless the person holds a valid registration issued by DTSC. A hazardous waste transporter registration is valid for one year and is assigned a unique registration number.

A review of the HWT list, as provided by EDR, and dated 07/06/2020 has revealed that there is 1 HWT site within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EXECUTIVE SUMMARY

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

PG AND E GAS PLANT S	530 S CENTER ST (IS	W 1/2 - 1 (0.578 mi.)	BP637	2318

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 82 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 23 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Site ID: 360147
Site Name: STOCKTON INDUSTRIAL SUPPLY
Violation Date: 11/30/2015
Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Description: Haz Waste Generator Program - Administration/Documentation - General
Violation Notes: Returned to compliance on 11/30/2015. A submission to the California Electronic Reporting System (CERS) for the hazardous waste program has not been made. Beginning January 1, 2013, all businesses are required to submit all new (or any changes to existing) hazardous waste information online to the CERS at <http://cers.calepa.ca.gov>. A submittal was made at the time of inspection. This was corrected on site.

Site ID: 360147
Site Name: STOCKTON INDUSTRIAL SUPPLY
Violation Date: 10/3/2018
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.
Violation Notes: Returned to compliance on 11/13/2018. Employee training records were not available at the time of inspection. The business plan shall include provisions for ensuring that appropriate personnel receive initial and annual refresher training. This training shall be documented electronically or by hard copy and shall be made available for a minimum of three years. Immediately provide employee training for appropriate personnel and submit a copy of the training records to the EHD.

Violation Description: Failure to complete and electronically submit a site map with all required content.

Violation Notes: Returned to compliance on 10/08/2018. The map did not show correct north orientation, hazardous materials storage outside near the tree (waste oil and soluble oil), access and exit points (access from Aurora Street and the doors at the north end of the shop) and does not contain a legend to identify the abbreviations used on the map (o ext). A site map shall contain a north orientation, loading areas, internal roads, adjacent streets, storm and sewer drains, access and exit points, emergency shutoffs, evacuation staging areas, hazardous material handling and storage areas, and emergency response equipment. If a site map element is not applicable for your facility then list it on the map and label as G NA". Immediately log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, upload the correct or updated information, and submit to the EHD for approval.

Violation Date: 12/10/2019
Citation: HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5, Section(s) 25250.22
Violation Description: Failure to properly manage used oil and/or fuel filters in accordance with the requirements.
Violation Notes: OBSERVATION: Containers of used metal oil filters out of compliance with the storage rules were observed on-site. The following used metal oil filter containers were on-site: - One blue 5 gallon container with used oil filters lacking a lid, accumulation start date, and a "drained used oil filters" label - One yellow approximately 3 gallon container with used oil filters lacking a lid, accumulation start date, and a "drained used oil filters" label REGULATION GUIDANCE: (b) G used oil filtersG are defined as filters which contain a residue of used oil and which are exempt from regulation as a hazardous waste under the scrap metal provision found in federal law. (c) Used oil filters that meet the conditions of subsection (b) of this section and are managed and recycled in compliance with the following requirements shall not be regulated as hazardous waste. (1) The filters are drained of free-flowing used oil. For the purposes of this subsection, free-flowing is defined as a

Violation Description: Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violation Notes: OBSERVATION: This business does not have a hazardous waste ID number in the California Department of Toxic Substances Control (DTSC) database. REGULATION GUIDANCE: A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without having received an Environmental Protection Agency (EPA) Identification (ID) Number. A State EPA ID number is required for generators of less than 100 kg RCRA hazardous waste per month, less than one kg of acutely hazardous waste per month or any amount of non-RCRA hazardous waste. ID numbers are unique to a business and site location. CORRECTIVE ACTION: Go to the DTSC web site at <https://dtsc.ca.gov/apply-for-hazardous-waste-epa-id-number/> to obtain a State ID number . Immediately apply for your ID number and submit evidence to the San Joaquin County Environmental Health Department within 30 days.

Violation Date: 12/10/2019
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: OBSERVATION: The following hazardous waste containers were found on-site with an accumulation start date of greater than 180 days or no accumulation start date: - Outside the shop in a metal secondary container, observed one 55 gallon drums of used oil, one 30 gallon drum of used oil, one 55 gallon drum of oily liquid, all lacked accumulation start dates. - In the shop, observed one blue 55 gallon drum of used oil, one white 5 gallon container of used oil, and one grey 5 gallon container of used antifreeze, all lacked accumulation start dates. - Outside the shop, observed a 30 gallon drum of metal shavings with accumulation start date 07-18-11
REGULATION GUIDANCE: (a) Except as provided in subsections (c) and (d) of this section and section 66262.35, a generator may accumulate hazardous waste on-site for 90 days or less without a permit or grant of interim status, provided that: (b) The beginning of the 90 day period specified in subsections (a) and (c) of this section

Violations:

Site ID: 564649
Site Name: Amberland Composites, LLC
Violation Date: 2/20/2020
Citation: HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507

Violation Description: Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.

Violation Notes: Returned to compliance on 04/24/2020. A Hazardous Materials Business Plan has not been established or implemented. A Hazardous Materials Business Plan shall be established and implemented for emergency response to a release or threatened release of a hazardous material when storing hazardous materials at or above the thresholds quantities of 55 gallons for materials that are liquids, 500 pounds for solids, or 200 cubic feet for compressed gas, at standard temperature and pressure. Immediately log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, enter the required information, and submit for review by the EHD.

Violation Division: San Joaquin County Environmental Health

Site ID: 564649
Site Name: Amberland Composites, LLC
Violation Date: 2/20/2020
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11

Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.

Violation Notes: Returned to compliance on 06/06/2020. OBSERVATIONS: The facility has one rusty four foot long compressed gas cylinder with no labeling. The owner did not know if the cylinder contains gas or what type of gas. REGULATION GUIDANCE: Any person who generates a waste shall determine if the waste is a hazardous waste as specified in Title 22 California Code of Regulations (CCR). There are wastes that are listed as hazardous wastes. There are wastes that exhibit one or more of the hazardous waste characteristics: toxic, corrosive, reactive or ignitable. CORRECTIVE ACTION: Immediately make a hazardous waste determination for each waste , and manage it according to Title 22 CCR. Use Safety Data Sheets (SDS), waste sampling and test results or other knowledge to support your hazardous waste determination. Waste testing must be done using methods specified in Title 22 CCR including sections 66261.20-24. Submit a statement and supporting documentation with your hazardous waste determination. Demonstrate current s

Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12

Violation Description: Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violation Notes: Returned to compliance on 03/19/2020. OBSERVATION: This business does not have a hazardous waste ID number in the California Department of Toxic Substances Control (DTSC) database for this business address. ID numbers are business and address specific. REGULATION GUIDANCE: A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without having received an Environmental Protection Agency (EPA) Identification (ID) Number. A State EPA ID number is required for generators of less than 100 kg RCRA hazardous waste per month, less than one kg of acutely hazardous waste per month or any amount of non-RCRA hazardous waste. ID numbers are unique to a business and site location. CORRECTIVE ACTION: Go to the DTSC web site at <https://dtsc.ca.gov/apply-for-hazardous-waste-epa-id-number/> to obtain a State ID number . Immediately apply for your ID number and submit evidence to the San Joaquin County Environmental Health Department within 30 days.

Violation Source: CERS

Site ID: 564649
Site Name: Amberland Composites, LLC
Violation Date: 2/20/2020
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violation Notes: Returned to compliance on 04/23/2020. One 55 gallon drum and several one gallon cans of acetone, one 55 gallon drum of waste flammable liquid, and five 55 gallon drums and sixteen 5 gallon pails of resin were found on site that has not been reported for 2020. Any material that meets or exceeds the reportable quantity shall be reported in the facility's business plan. Immediately log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, add the materials to the hazardous material inventory, and submit to the EHD for approval.

Violation Date: 3/15/2019
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.
Violation Notes: Returned to compliance on 04/02/2019. Employee training records were not available at the time of inspection. The business plan shall include provisions for ensuring that appropriate personnel receive initial and annual refresher training. This training shall be documented electronically or by hard copy and shall be made available for a minimum of three years. Immediately provide employee training for appropriate personnel and submit a copy of the training records to the EHD.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Date: 7/10/2015
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)

Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violation Notes: Returned to compliance on 08/10/2015. Saturated oily absorbent pads were observed unlabeled under equipment in the shop and around the car crusher. A 55-gallon red steel drum of used oil was observed in the appliance recycling area with an incorrect accumulation start date of 4/29/15. According to disposal records and Mr. Zeiter, this drum was last emptied on 6/11/15. The date was corrected at the time of inspection. All hazardous waste containers shall be marked with the following information: - the words G Hazardous WasteG - name and address of generator - hazardous properties (ignitable, corrosive, reactive, toxic) - physical state (liquid, solid) - composition (contents) - accumulation start date Immediately label these containers and ensure that all containers are marked with all the required information. Since it cannot be determined how long the saturated oily absorbent pads have been on site, immediately contact a licensed hazardous waste hauler to dispose of this waste under [Truncated]

Eval Type: Routine done by local agency
Eval Notes: An inspection report was provided to the facility operator on the day of inspection March 1, 2019. Lather the same day, the report was amended by the EHD. This amended report replaces the initial report. Facility does not have internal roads and this element was not addressed on the site map. Please address this by either writing G NAG for not applicable or a statement that says the element is not on site. Please correct this by the next submittal. Assisted with CERS submittal at the time of inspection. COS box for violation #6 was marked in error. Please disregard that mark. Starting September 1, 2018, all in-office CERS help will be provided at EHD hourly rate (\$152). To schedule an appointment, please call (209) 468-3420.

Eval Division: San Joaquin County Environmental Health
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Other/Unknown
Eval Date: 07-10-2015
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: SPCC inspection conducted during the routine hazardous waste generator inspection. The facility has a SPCC Plan on site.

Eval Division: San Joaquin County Environmental Health
Eval Program: APSA
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 02-12-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification

form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and supporting paperwork by March 14, 2016. Please be aware as of January 1, 2013, all businesses were required to submit all hazardous materials information online to the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov>. Be sure to include your hazardous material activity in the Businesses Activities section in CERS in addition to any other relevant activities and required fields. For assistance with CERS, contact Lisa Medina at 209-468-3455.

AIR EMISSIONS CLASSIFICATION UNKNOWN
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART)
provides California with information on hazardous waste shipments for
generators, transporters, and treatment, storage, and disposal
facilities.

RCRAInfo is a national information system that supports the Resource
Conservation and Recovery Act (RCRA) program through the tracking of
events and activities related to facilities that generate, transport,
and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA
program staff to track the notification, permit, compliance, and
corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Site Name: GEIGER MFG INC
Violation Date: 4/5/2016
Citation: 40 CFR 1 265.172 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.172
Violation Description: Failure to accumulate or store hazardous waste in a lined/compatible container.
Violation Notes: Returned to compliance on 05/05/2016. An open cardboard box was observed containing "oily sludge" from the drill grinder and is not designed for storage of oils and liquids. Wastes shall be stored in a container made of or lined with materials which will not react with, and are otherwise compatible with, the hazardous waste to be transferred or stored, so that the ability of the container to contain the waste is not impaired. Immediately transfer the oily sludge to a compatible container.

Violation Date: 4/5/2016
Citation: 22 CCR 12 66262.23(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.23(a)
Violation Description: Failure to properly complete the Hazardous Waste manifest.
Violation Notes: Returned to compliance on 05/05/2016. Grinding dust is being placed in the drum with the absorbent, grease, and drysall. The manifests for this waste are for "sludge and grease" and do not include the grinding metal dust. The generator and waste sections of the uniform manifest shall be completed and signed and dated by the generator. The transporter shall also sign and date the manifest. Ensure that all manifests are properly completed for any transport of a hazardous waste for off-site transfer, treatment, storage or disposal.

Citation: 22 CCR 12 66262.40(c) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(c)

Violation Description: Failure to determine if the waste generated is a hazardous waste and to maintain analysis results for three years.

Violation Notes: Returned to compliance on 07/14/2016. -Some of the metal fines generated from metal grinding and cutting are being recycled as scrap metal or being disposed of in the trash without first determining particle size or hazardous properties. -Sandblast waste is being stored on site with no labeling or lids. According to Mr. Penbley, no hazardous waste determination has been made for this waste. Three 5 gallon buckets and a 55 gallon drum of sandblast waste were observed on site. Sandblast waste was also observed on the floor under and around the sandblast machine. -Parts washer waste is being disposed of as non-hazardous waste, but no hazardous waste determination has been made for this waste. Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately stop recycling and disposing of metal fines in the trash, stop disposal of parts washer waste as non-hazardous, make a hazardous waste determination for the metal fines, sandblast waste, and parts washer waste, and manage them

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

CERS Description: Hazardous Waste Generator

Violations:

Site ID: 432056
Site Name: BROTHERS TRANSMISSION
Violation Date: 9/24/2019
Citation: 40 CFR 1 265.33 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.33

Violation Description: Failure to test and maintain as necessary all facility communications or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment to assure its proper operation in time of emergency.

Violation Notes: OBSERVATION: The secondary containment for (2) 55-gallon drums of used oil was not empty. REGULATION GUIDANCE: All facility communications or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment, where required, shall be tested and maintained as necessary to assure its proper operation in time of emergency. CORRECTIVE ACTION: Bring the secondary containment into proper working order by cleaning out the secondary containment. Provide a corrective action statement and evidence of correction to the San Joaquin County Environmental Health Department within 30 days.

Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 432056
Site Name: BROTHERS TRANSMISSION
Violation Date: 9/24/2019
Citation: 40 CFR 1 262.34(d)(5)(ii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(ii)

Violation Description: Failure to post the following information next to the telephone: (A) The name and telephone number of the emergency coordinator; (B) Location of fire extinguishers and spill control material, and, if present, fire alarm; and (C) The telephone number of the fire department, unless the facility has a direct alarm.

Violation Notes: Returned to compliance on 09/24/2019. OBSERVATION: A complete modified contingency plan was not posted at the facility. REGULATION GUIDANCE: The business operator must post the following information next to telephones or in areas directly involved in the generation and accumulation of hazardous waste: the name and emergency telephone number of the emergency coordinator, the location of fire extinguishers and spill control material, and the telephone number of the fire department unless the facility has a direct alarm. CORRECTIVE ACTION: The violation was corrected during the inspection by the Owner Victor Rodriguez. No further action is required to correct this violation.

Site Name: BROTHERS TRANSMISSION
Violation Date: 9/24/2019
Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2

Violation Description: Failure of a generator of hazardous waste that meets the conditions to be transported on a consolidated manifest to comply with one or more of the required consolidated manifesting procedures and retain copies of receipts for three years.

Violation Notes: OBSERVATION: Copies of consolidated manifest receipts from September 24, 2019 to September 24, 2016 for hazardous wastes were not found on site during the inspection REGULATION GUIDANCE: The generator shall retain each consolidated manifest receipt for at least three years. This period of retention is extended automatically during the course of any unresolved enforcement action regarding the regulated activity or as requested by the department or a certified unified program agency. CORRECTIVE ACTION: Immediately locate a copy of all consolidated manifest receipts from September 24, 2019 to September 24, 2016 and maintain them on site. Provide a copy of the consolidated manifest receipts and a corrective action statement to the San Joaquin County Environmental Health Department.

Site Name: BAGLIETTO SEEDS
Violation Date: 6/3/2016
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.
Violation Notes: Returned to compliance on 08/10/2016. Proof of relevant employee training was not available at the time of inspection. The business plan shall include provisions for ensuring that appropriate personnel receive initial and annual refresher training. This training shall be documented electronically or by hard copy and shall be made available for a minimum of three years. Immediately provide employee training for appropriate personnel and submit a copy of the training records to the EHD.

Violation Source: CERS

Site ID: 97084
Site Name: BAGLIETTO SEEDS
Violation Date: 4/4/2018
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)

Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violation Notes: Returned to compliance on 05/03/2018. A 55 gallon black steel drum of used oil was observed with an oily, faded hazardous waste label with no hazardous property or generator name and address. The accumulation start date was from 2016. According to the disposal records on site, the most recent disposal date of used oil was 4/21/17. All hazardous waste containers shall be marked with the following information: - the words G Hazardous WasteG - name and address of generator - hazardous properties (ignitable, corrosive, reactive, toxic) - physical state (liquid, solid) - composition (contents) - accumulation start date Immediately label this container and ensure that all hazardous waste containers are marked with all the required information.

Violation Division: San Joaquin County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 97084
Site Name: BAGLIETTO SEEDS
Violation Date: 4/4/2018
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 05/03/2018. A 55 gallon black steel drum of used oil was observed with an accumulation start date of 2016. The disposal records on site indicated the used oil was last picked up on 4/21/17. Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. Immediately contact a licensed hazardous waste hauler to dispose of this waste under manifest and submit a copy of the manifest to the EHD.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-27-2015
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by April 26, 2015. Notes: (corrected on site) - Metal fines generated from cutting and grinding steel are being recycled as scrap metal without first determining particle size or hazardous properties. Any person who generates a waste shall determine if the waste is a hazardous waste. Immediately stop recycling metal fines, make a hazardous waste determination for the steel grinding and cutting waste, and manage it according to Title 22 hazardous waste regulations. Particles 100 microns or smaller must be handled as hazardous waste if the metal is determined to be a hazardous waste. Mr. Bevilaqua decided to handle the waste as hazardous and had the waste placed in a container and labeled as hazardous waste at the time of inspection. - A spill pallet [Truncated]

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Site ID: 522265
Site Name: Hernandez Auto Paint
Violation Date: 4/8/2019
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 04/17/2020. In the waste paint area: -One black 30 gallon steel drum containing solid waste paint (1/2 full) was observed with a hazardous waste label missing the accumulation start date. -One black 30 gallon steel drum containing water based paint (less than 1/8 full) was observed with a hazardous waste label missing the accumulation start date and the hazardous properties. All hazardous waste containers shall be marked with the following information: - the words G Hazardous WasteG - name and address of generator - hazardous properties - physical state - composition (contents) - accumulation start date Immediately label these containers and ensure that all hazardous waste containers are marked with all the required information.

Site ID: 522265
Site Name: Hernandez Auto Paint
Violation Date: 4/8/2019
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11
Violation Description: Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.
Violation Notes: Returned to compliance on 05/05/2020. According to the owner, Hernandez, sanding dust is swept up and thrown into the trash. Hernandez said that the waste would start to be handled as a hazardous waste. The following wastes were found in the backyard area: -One black 55 gallon steel drum contained an unknown solid (full) -One blue 55 gallon steel drum containing an unknown liquid (full) -One white 55 gallon poly drum contained an unknown liquid (full) -Two yellow 1 gallon buckets contained an unknown solid (full) -Twelve 5 gallon buckets contained an unknown waste (each had waste in it) -Two red 5 gallon buckets contained a paint waste (each 1/2 full) Immediately, make a complete hazardous waste determination for the above wastes, and manage them according to Title 22 hazardous waste regulations. Submit a statement and supporting documentation explaining how these wastes were managed.

disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 04/22/2020. The following containers were observed without an accumulation start date in the waste paint area:
-One black 30 gallon steel drum contained a solid waste paint -One black 30 gallon steel drum contained a water based paint Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. Since it cannot be determined how long these hazardous wastes have been on site, immediately contact a licensed hazardous waste hauler to dispose of this waste under manifest. Submit a copy of the manifest to the EHD within 30 days.

Violation Date: 4/8/2019
Citation: HSC 6.5 25123.3(h) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)

Violation Description: Failure to determine the status of any hazardous waste if a signed copy of the manifest isnG t received within 35 days of the date the waste was accepted by the initial transporter and/or to submit an Exception Report to DTSC if a signed copy of the manifest isnG t received within 60 days of the date the waste was accepted by the initial transporter.

Violation Notes: Returned to compliance on 05/29/2020. Manifest numbers 017792233JJK (3/12/2018) and 017792234JJK (3/12/2018) were not found on site. Hazardous waste generators shall retain copies of all manifests for three years or until a copy signed off by the destination facility is received. The signed off copy shall be retained and made readily available for review for three years. If the generator did not receive a copy of the manifest with the handwritten signature of the owner or operator of the facility to which the generatorG s waste was submitted within 60 days of the date the waste was accepted by the initial transporter, the generator shall submit a legible copy of the missing manifest, with some indication that the generator has not received confirmation of delivery. This information shall be submitted to: DTSC Report Repository Generator Information Services Section P.O. Box 806 Sacramento, CA 95812-0806 Immediately locate a copy of the missing manifests or prepare and submit the required infor

Violation Description: Failure to manage empty containers greater than 5 gallons in capacity that previously held a hazardous material/waste in accordance with 22 CCR 11 66261.7 including but not limited to the following: (e)(2)By reclaiming its scrap value onsite or shipping the container or inner liner to a person who reclaims its scrap value; or (3) By reconditioning or re manufacturing the container or inner liner onsite for subsequent reuse, or shipping the container or inner liner to a person who reconditions or re-manufactures the container or inner liner; or (4) By shipping the container or inner liner to a supplier or to another intermediate collection location for accumulation prior to managing the container or inner liner pursuant to subsections (e)(2) or (e)(3) of 22 CCR 11 66261.7; or (i) By shipping the container or inner liner back to the supplier for the purpose of being refilled. (f) A container or an inner liner removed from a container larger than five gallons in capacity which is managed pursuant to subsection (e) of 22 CCR 11 66261.7 shall be marked with the date it has been emptied and shall be managed within one year of being emptied.

Violation Notes: Returned to compliance on 04/17/2020. One blue 55 gallon steel drum that contained used oil was observed without an empty label. Containers larger than five gallons that previously held a hazardous material shall be marked with the date they were emptied and managed within one year of being emptied. Immediately mark and manage all empty containers per this section.

Violation Date: 4/8/2019
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)

Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violation Notes: Returned to compliance on 05/29/2020. Copies of uniform manifests for the disposal of hazardous waste for 2016, 2017, 2018, and 2019 were not found on site for paint solids and water based paints. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD. Manifest numbers 017792233JJK (3/12/2018) and 017792234JJK (3/12/2018) were not found on site. Hazardous waste generators shall retain copies of all manifests for three years or until a copy signed off by the destination facility is received. The signed off copy shall be retained and made readily available for review for three years. Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-05-2019
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: No reportable amount of hazardous material observed at the time of inspection. Site is currently exempt from California Health & Safety Code Chapter 6.95 reporting requirements. Below 55 gallons of new paint in 1 gallon and smaller containers, one 30 gallon drum of waste oil base paint, and one 30 gallon drum of waste water base paint, below 200 cubic feet of compressed oxygen, below 200 cubic feet of acetylene, and below 200 cubic feet of argon/carbon dioxide mix, and one 50 pound cylinder of carbon dioxide are present at this facility. Note, a business shall establish and implement a business plan for emergency response to a release or threatened release of a hazardous material if the business handles a hazardous material or a mixture containing a hazardous material that has a quantity at any one time during the reporting year that is equal to, or greater than, 55 gallons for materials that are liquids, 500 pounds for solids, or 200 cubic feet for compressed gas.

Eval Division: San Joaquin County Environmental Health
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-08-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by May 8, 2019. Starting September 1, 2018, all in-office CERS help will be provided at EHD hourly rate (\$152). To schedule an appointment, please call (209) 468-3420. The following minor violations were corrected on site: An emergency coordinator and modified contingency plan information is lacking. There must be at least one emergency coordinator on site or on call to coordinate emergency response measures, and the following information must be posted by a phone: the name and phone number of the emergency coordinator; location of fire extinguishers, spill control equipment, and if present, fire alarm; and the phone number of the fire department, unless the facility has a direct alarm. Immediately appoint an emergency coordinator and post the required inform

Baseline Flow: 0
 Reclamation: Not reported
 POTW: Not reported
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-24-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Inspection conducted on January 24th, January 25th, and completed on January 28, 2019. An inspection report was provided to the facility operator on January 28, 2019. On January 31, 2019 the report was amended by the EHD. This amended report replaces the initial report. The original report was amended to add the 1,800 gallon tank of Tunnel Express Cherry Soap and to remove a duplicate entry for a 55 gallon drum of sodium hydroxide from violation 5, remove G repeat violation G form violation 9, and to add violation 10 to the report. Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, within 30 days of receiving the completed inspection report. Facility does not have internal roads and this element was not addressed on the site map. Please address this by either writing G NAG for not applicable or a statement

Eval Notes: Ruben email me saying that he corrected the violations in CERS. I reviewed correction in CERS again. Business did not include the evacuation staging area on the site map. I emailed ruben and told him either to add the evacuation staging area on the site map or upload the evacuation map that they had uploaded for last year submittal. Ruben called me and told me he is going to correct these issues in the next 5 minutes. I checked latter, the emergency response plan was corrected and the evacuation map was uploaded. Ruben told me that the same training 1015 E channel Street facility is used for this facility. I printed a copy of the training records, and the email from Ruben and placed it in Yvonne's inbox to be scanned. I closed all the violations in EC.

Citation: 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)
Violation Description: Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.
Violation Notes: OBSERVATION: At the time of inspection, it could not be demonstrated (not necessarily documented) that employees who handle hazardous waste were properly trained, based on the following observations: 1. Nick Berndt, the Store Director, stated that the facility takes it's leaky and damaged containers of liquid laundry detergent and fabric softener to the facility's laundromat, located in a separate building on the other side of the facility's parking lot. According to Nick, the liquid laundry detergent and fabric softener are used in the laundry machines every week when the machines are tested to ensure they are in proper working order. Although Nick stated that any spilled laundry detergent and fabric softener is cleaned up using absorbent and then placed in a hazardous waste storage container, at the time of inspection there was no used absorbent in the hazardous waste storage area, nor were there any hazardous waste manifests documenting the proper disposal of laundry detergent/f

Violation Date: 6/24/2020
Citation: 40 CFR 1 265.33 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.33

Violation Description: Failure to test and maintain as necessary all facility communications or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment to assure its proper operation in time of emergency.

Violation Notes: OBSERVATION: The emergency eye wash station in the facility's back storage area did not function when tested. The eye wash station also did not have a secondary container to capture used eye wash solution. REGULATION GUIDANCE: All facility communications or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment, where required, shall be tested and maintained as necessary to assure its proper operation in time of emergency. CORRECTIVE ACTION: Bring the emergency eye wash station into proper working order by repair, replacement or testing. Provide a corrective action statement to the San Joaquin County Environmental Health Department within 30 days.

Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violation Notes: OBSERVATION: The business operator could not provide hazardous waste disposal records from 2017 through present. According to Nick Berndet, the Store Director, the facility did not generate hazardous waste in 2019, nor in 2020 so far. Nick stated that the facility takes it's leaky and damaged containers of liquid laundry detergent and fabric softener to the facility's laundromat, located in a separate building on the other side of the facility's parking lot. According to Nick, the liquid laundry detergent and fabric softener are used in the laundry machines every week when the machines are tested to ensure they are in proper working order. Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 02-11-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, within 30 days of receiving the completed inspection report. Facility does not have internal roads, emergency shutoffs and these elements were not addressed on the site map. Please address this by either writing G NAG for not applicable or a statement that says the element is not on site. Please correct this by the next submittal. Business has been at this location at least 20 years. Starting September 1, 2018, all in-office CERS help will be provided at EHD hourly rate (\$152). To schedule an appointment, please call (209) 468-3420.

S121754493

Site ID: 24768
CERS ID: 10182413
CERS Description: Chemical Storage Facilities

Violations:

Site ID: 24768
Site Name: DENTONIS WELDING WORKS INC
Violation Date: 1/11/2016
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violation Notes: Returned to compliance on 01/11/2016. 81 gallons of Propane and 1800 cubic feet of Argon with Carbon Dioxide Mixture were found on site that have not been reported. Any material that meets or exceeds the reportable quantity shall be reported in the facility's business plan. Immediately log into the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>, add the materials to the hazardous material inventory, and submit to the EHD for approval. This was corrected on site.

Violation Division: San Joaquin County Environmental Health
Violation Program: HMRRP
Violation Source: CERS

Site ID: 24768
Site Name: DENTONIS WELDING WORKS INC
Violation Date: 1/11/2016
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 02/10/2016. Records of employees training were not available at the time of the inspection. The business plan shall include provisions for ensuring that appropriate personnel receive initial and annual refresher training. This training shall be documented electronically or by hard copy and shall be made available for a minimum of three years. Immediately provide employee training for appropriate personnel and submit a copy of the training records to the EHD.

Violation Division: San Joaquin County Environmental Health
Violation Program: HMRRP
Violation Source: CERS

Evaluation:

Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-11-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, by 02/10/2016. Please be aware as of January 1, 2013, all businesses are required to submit all hazardous materials information online to the California Environmental Reporting System (CERS) at

Site History: 12/27/1991, four USTs removed. 2/18/1992, UAR and Prop 65 notifications completed. 3/25/1992, seven soil borings, TH-1 through TH-7, advanced on site. 4/2/1992, NOR issued to Frank Morita. 9/29,30/1992, MW-1, MW-2 and MW-3 installed. Between 9/1999 and 12/2003 16 additional monitoring wells installed (19 total MWs). 3/31/1993 and 5/17/1993, two phases of overexcavation of former tank pit. 4/29/2008, Risk evaluation and soil & soil gas investigation report issued. 2/05/2009, the EHD concurred that the risk and hazard of vapor intrusion was minimal. 5/20/2009, the EHD the site status to Regional Board for possible closure consideration. 9/10/2009, site consultant issued Site Closure Summary Report recommending site closure. 10/29/2009, the EHD sent the 30-day notification of site closure to the Central Valley Regional Water Quality Control Board. 11/18/2009; the Reional Board issued a concurrence letter for site closure. 12/01/2009, the EHD issued letter notifying the RPs that site closure was pending, directing destruction of the site monitoring wells, and requesting an updated certification of Record Fee Title Owners. 4/24/2010 through 4/28/2010; EHD witnessed destruction of 17 groundwater monitoring wells. Two wells were transferred to RP for the 749 E. Charter Way site. 8/16/2010; the EHD received by email a properly signed hazardous waste manifest for disposal of investigation derived wastes. 8/18/2010; the EHD issued a No Further Action Required Letter closing the site and updated GeoTracker.

Site ID: 60390
Site Name: RANCHO SAN MIGUEL MARKET*
Violation Date: 4/11/2018
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 04/23/2018. Employee training records were not available at the time of inspection. The business plan shall include provisions for ensuring that appropriate personnel receive initial and annual refresher training. This training shall be documented electronically or by hard copy and shall be made available for a minimum of three years. Immediately provide employee training for appropriate personnel and submit a copy of the training records to the EHD.

Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)

Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violation Notes: Returned to compliance on 07/20/2018. Manifest numbers 008301191FLE (7/8/15) and 008301192FLE (7/8/15) were not found on site. Hazardous waste generators shall retain copies of all manifests for three years or until a copy signed off by the destination facility is received. The signed off copy shall be retained and made readily available for review for three years. If the generator did not receive a copy of the manifest with the handwritten signature of the owner or operator of the facility to which the generator's waste was submitted within 60 days of the date the waste was accepted by the initial transporter, the generator shall submit a legible copy of the missing manifest, with some indication that the generator has not received confirmation of delivery. This information shall be submitted to: DTSC Report Repository Generator Information Services Section P.O. Box 806 Sacramento, CA 95812-0806 Immediately locate a copy of the missing manifests or prepare and submit the required information

Site Name: RANCHO SAN MIGUEL MARKET*
Violation Date: 6/16/2016
Citation: 23 CCR 16 2665 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2665

Violation Description: Failure to comply with one or more of the following: Failure to install or maintain a liquid-tight spill bucket. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill bucket/spill container. Be resistant to galvanic corrosion.

Violation Notes: Returned to compliance on 06/16/2016. The 87 spill container failed when tested. All spill containers shall have a minimum capacity of five gallons and be capable of containing a spill or overflow until it is detected or cleaned up. The adapter was cleaned and smoothed down by the technician. The spill container was retested and passed. This violation was corrected on site.

Returned to compliance on 07/20/2018. Copies of hazardous waste disposal records for 2015 and the second half of 2016 were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Immediately locate a copy of all missing manifests and receipts for the last three years, maintain them on site, and submit copies to the EHD. San Joaquin County Environmental Health</p>

Violation Program: HW
Violation Source: CERS

Site ID: 60390
Site Name: RANCHO SAN MIGUEL MARKET*
Violation Date: 6/24/2019
Citation: HSC 6.7 25290.1(c)(3),25290.2(c)(3) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(c)(3),25290.2(c)(3)
Violation Description: Failure to keep water out of the secondary containment of UST systems installed on or after July 1, 2003.
Violation Notes: Returned to compliance on 06/25/2019. Water was found in the 91-product fill sump. Secondary containment shall be constructed to prevent any water intrusion into the system by precipitation, infiltration, or surface runoff. The service technician removed approximately 8 cups of liquid from the 91-product fill sump and returned the sensor to its proper location. Immediately contact a properly licensed, trained, and certified contractor to address the water intrusion into the sump. This was corrected on site.

Violation Date: 6/22/2017
Citation: HSC 6.7 25290.1(c)(3), 25290.2(c)(3) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(c)(3), 25290.2(c)(3)
Violation Description: Failure to keep water out of the secondary containment of UST systems installed on or after July 1, 2003 and before July 1, 2004, or on or after July 1, 2004.
Violation Notes: Returned to compliance on 06/22/2017. Water was found in the 91-product submersible turbine pump (STP) sump, 91-product fill sump, and 87-product fill sump. Secondary containment shall be constructed to prevent any water intrusion into the system by precipitation, infiltration, or surface runoff. The service technician removed approximately one-quarter cup of liquid from the 91-product STP and fill sumps and the 87-product fill sump and returned the sensors to their proper location. It was noted during the inspection today that the L3 fill sump 91 and L4 fill sump 87 208 sensors have alarmed due to liquid in the fill sumps over the past year. Immediately contact a properly licensed, trained, and certified contractor to address the water intrusion into the sumps. This was corrected on site.

Violation Date: 6/20/2018
Citation: HSC 6.5 25123.3(h) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)

Violation Description: Failure to determine the status of any hazardous waste if a signed copy of the manifest isn't received within 35 days of the date the waste was accepted by the initial transporter and/or to submit an Exception Report to DTSC if a signed copy of the manifest isn't received within 60 days of the date the waste was accepted by the initial transporter.

Violation Notes: Returned to compliance on 07/20/2018. Manifest numbers 008301191FLE (7/8/15) and 008301192FLE (7/8/15) were not found on site. Hazardous waste generators shall retain copies of all manifests for three years or until a copy signed off by the destination facility is received. The signed off copy shall be retained and made readily available for review for three years. If the generator did not receive a copy of the manifest with the handwritten signature of the owner or operator of the facility to which the generator's waste was submitted within 60 days of the date the waste was accepted by the initial transporter, the generator shall submit a legible copy of the missing manifest, with some indication that the generator has not received confirmation of delivery. This information shall be submitted to: DTSC Report Repository Generator Information Services Section P.O. Box 806 Sacramento, CA 95812-0806 Immediately locate a copy of the missing manifests or prepare and submit the required information

Site Name: RANCHO SAN MIGUEL MARKET*
Violation Date: 6/22/2017
Citation: 23 CCR 16 2665 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2665

Violation Description: Failure to comply with one or more of the following: Failure to install or maintain a liquid-tight spill bucket. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill bucket/spill container. Be resistant to galvanic corrosion.

Violation Notes: Returned to compliance on 06/22/2017. The 91-product spill container failed the one-hour hydrostatic test. All USTs shall be equipped with a spill container that has a minimum capacity of five gallons and a drain valve that allows drainage of the collected spill into the primary container or provides a means to keep the container empty. The service technician replaced the cap and retested and the 91-product spill container passed the one-hour hydrostatic test. This was corrected on site.

Violation Description: Failure to comply with one or more of the following: Failure to install or maintain a liquid-tight spill bucket. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill bucket/spill container. Be resistant to galvanic corrosion.

Violation Notes: Returned to compliance on 07/13/2018. The 91 spill container, in a monitored fill sump, failed to have a minimum capacity of five gallons. All spill containers shall have a minimum capacity of five gallons. The spill container was retested and failed again. Immediately contact a properly licensed, trained, and certified contractor to repair or replace the spill container under permit (if needed) and inspection of the EHD.

Evaluation:

Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-11-2018
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Complete and submit a copy of the Return to Compliance Certification form to the EHD with a statement documenting the corrective actions that have been or will be taken for each violation, and any supporting paperwork, within 30 days of receiving the completed inspection report. Please be aware as of January 1, 2013, all businesses were required to submit all hazardous materials information online to the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov>. Be sure to include your hazardous material activity in the Businesses Activities section in CERS in addition to any other relevant activities and required fields. For assistance with CERS, contact Toby Morelli at tmorelli@sjcehd.com or 209-468-3421.
